JURY CHARGE.....	Page 1115

1 (Proceedings heard in open court. Jury out.)

2 MS. BABU: Judge, would you like to handle the show  
3 cause without the defendant, or does he want to be present for  
4 that?

5 MR. HYMAN: Both of the officers are here.

6 THE COURT: Your witness, we don't need to show  
7 cause. I'll just vacate the --

8 MS. BABU: Great.

9 THE COURT: As long as he's here.

10 MR. HYMAN: Yes, both.

11 THE COURT: I'll vacate the rule. You don't have any  
12 objection to that, do you?

13 MR. HYMAN: No.

14 MS. BABU: Thank you, your Honor.

15 (Pause.)

16 THE COURT: We'll go on the record.

17 For the record, the Court met with the attorneys in  
18 chambers Friday evening for -- or Friday afternoon for a  
19 period of time and discussed proposed instructions which was  
20 done, as I understood, with the full consent of the defendant.  
21 I had said we would go on record Monday morning, and I'll give  
22 the official instruction conference.

23 So if you have your notes, I went through the  
24 proposed final instructions. I noted a couple of, I think,  
25 discrepancies although they may go away. Instruction No. 1

1 which is 1.01 is given as modified, and the modification was  
2 made.

3 2 and 3 are given -- 1 is given without objection.

4 2 and 3 are given without objection unmodified.

5 4 was given without objection as modified without the  
6 last sentence, as my reading of that has occurred.

7 2 -- 5, 2.02, is given without objection.

8 And 6, 2.03, is given without objection as proposed.

9 And 2.04, or instruction No. 7 without brackets --  
10 let's see. I have a note. I didn't check that one off.

11 Let's see. Without the bracketed material, that is out. So  
12 that was accomplished.

13 8 was withdrawn.

14 9, to present evidence, he is presenting evidence, so  
15 that was supposed to be removed, but that needs to be modified  
16 to remove that.

17 MS. BABU: Will do, your Honor. We will take care of  
18 that at a break.

19 THE COURT: All right. 10 is without -- I'm trying  
20 to read, without last sentence, but I'm not sure.

21 MR. PISSETZKY: You took out the bracketed language  
22 on the top.

23 THE COURT: Okay. That's okay.

24 MR. PISSETZKY: We took out the age of the witness.

25 THE COURT: All right. So that's okay.

1 11 is given without objection as written.

2 12 is modified -- let's see. 12 is objected to but  
3 we made plural "witnesses," so that's no longer objected to.  
4 Is that correct? We made it plural.

5 MR. PISSETZKY: Yes.

6 THE COURT: All right. 13 was withdrawn.

7 14 was modified to make plural. That was done.

8 15 --

9 MR. PISSETZKY: Is out.

10 THE COURT: -- is withdrawn.

11 16 was withdrawn.

12 17 is given with the brackets. And that was done.

13 18 is given, is modified, removed, Bille and Chmelar,  
14 and that was done.

15 19 was withdrawn.

16 20 was amended to for "map," and that was done.

17 21 was given without objection.

18 22 is given with the brackets, and that was done.

19 23, 4.05, is withdrawn.

20 26.

21 MR. PISSETZKY: We just objected to --

22 THE COURT: Pardon?

23 MR. PISSETZKY: We objected to that one, but you had  
24 given it.

25 THE COURT: Yes, given over the objection of the

1 defendant. Do you want to argue that?

2 MR. PISSETZKY: Judge, the only argument that we have  
3 is that I don't think that it accurately depicts what we have  
4 here. There's -- he is not accused of more than one crime.  
5 There's one crime that is charged in two separate ways, so I  
6 don't think it's appropriate.

7 THE COURT: All right. It will be given without --  
8 with objection.

9 27, the elements. There's an objection to that in my  
10 notes.

11 MR. PISSETZKY: Right. We objected to the No. 4,  
12 proposition 4 which says, "A, intentionally used a deadly  
13 weapon or a dangerous weapon or, B, intentionally inflicted  
14 bodily harm." We're objecting to the second, to B basically  
15 because it's not charged that way.

16 THE COURT: Let's see. Okay. That's given over your  
17 objection.

18 28 is given without objection.

19 29 was withdrawn.

20 30 was given without objection.

21 31 is given, but I don't see it in my packet.

22 MR. PISSETZKY: I think they skipped -- there was no  
23 31. It was a typo.

24 THE COURT: So you may want that one. That's the one  
25 that says that to commit a forceable assault of a federal --

1 it is not necessary he knew that it was a federal officer.

2 MR. EICHENSEER: Yes, Judge. We moved it after the  
3 instruction conference on Friday. It's now -- it's now part  
4 of the knowingly definition right after the elements of Count  
5 1.

6 THE COURT: Okay. Fine.

7 MR. PISSETZKY: And we don't have an objection.

8 THE COURT: All right. That's good.

9 32 was withdrawn.

10 33 is given without objection.

11 34, 35, and 36 are withdrawn.

12 37 is -- let's see. There's supposedly a  
13 modification. What was the modification?

14 MS. BABU: Your Honor, instead of "yes," it was  
15 changed to, "check, was discharged," and "no" was changed  
16 to, "check, was not discharged" to track the verdict form.

17 MR. PISSETZKY: Correct.

18 THE COURT: All right. So that's okay.

19 38 is given without objection.

20 39 is given with the bracketed. That was done.

21 39 is given with the brackets.

22 40 is given without objection.

23 41 is given without objection.

24 And at least the verdict form, you've removed the  
25 provision about, if you're not guilty of Count 1, you can't be

1 guilty of Count 2.

2 MR. PISSETZKY: Well, your Honor, may I argue that?

3 THE COURT: Yes --

4 MR. PISSETZKY: The government sent you a nice  
5 letter --

6 THE COURT: -- you can.

7 MR. PISSETZKY: -- over the weekend but you didn't  
8 hear argument.

9 THE COURT: I know. I will. I think we all thought  
10 at the time that that was the law. Now, the government  
11 contends based upon Judge Easterbrook's opinion in *Davila*  
12 *versus U.S.* that's, there can be a conviction of Count 2  
13 without a conviction of Count 1.

14 MR. PISSETZKY: Well, that's not truly accurate. The  
15 government loves to quote and lift quotes from different  
16 cases. I guess we all do that because we're lawyers, but  
17 these are not the propositions of these cases.

18 We have a case specifically that charges in Count 1  
19 that discharge of a firearm to cause bodily injury and then we  
20 have a Count 2 which is the gun charge. They're the same  
21 exact charge. It's not as if the government didn't charge him  
22 with another case.

23 The cases that they quote are either cases that the  
24 individual was not charged with the underlying offense, which  
25 happened here because he is charged with the underlying

1 offense, or the government's quoted cases where in hindsight  
2 on abuse of discretion, the appellate court said, well, it's  
3 not -- it's not an error on the abuse of discretion standard  
4 because it's not an inconsistent verdict in a scenario like  
5 that.

6           There was not an objection during trial. We're  
7 objecting to it, and we're saying we need that language. And  
8 if you -- and we saw it now and we caught it at this point.  
9 So when we see it, and we are saying it's inconsistent  
10 verdicts at that time, then the appellate court is going to  
11 side with us and say "you're correct" because we're raising  
12 the objection now. It's not a first-time objection on appeal,  
13 Judge. It's not abuse of discretion anymore.

14           MS. BABU: Your Honor, I think the underlying issue  
15 here and ultimate -- the ultimate issue here is that the  
16 government could have charged just the 924(c) count here  
17 without the predicate 111 count, and it still would have been  
18 a valid indictment. And so, therefore, it's not necessary  
19 that the jury find the defendant guilty of Count 1 to find him  
20 guilty of Count 2, and that's the ultimate issue before the  
21 Court.

22           MR. PISSETZKY: On the contrary. Because the  
23 government in this case charged him with the underlying  
24 offense, it does create an inconsistent verdict issue,  
25 especially because we're raising it now and we're telling the

1 Court, it will be -- as the Court said -- as one of the quotes  
2 from the government, it says, it does cause -- it will cause  
3 jury confusion at this point because there are inconsistent  
4 verdicts. And we're raising it. And it's not an abuse of  
5 discretion. It will be reviewed de novo because we are  
6 raising it at this point and the government did charge it.

7 Now, if they're going to dismiss Count 1 then, of  
8 course, they can charge him with a 924(c). There's no  
9 question about it --

10 MS. BABU: Your Honor --

11 MR. PISSETZKY: -- but they're not.

12 MS. BABU: Your Honor, the Supreme Court has found  
13 that while there may be an inconsistent verdict, that that is  
14 sometimes okay, that that is fine. But if the jury, if the  
15 jury in whatever, in their discretion for whatever reason they  
16 choose, if they choose to find the defendant not guilty on  
17 Count 1 and find him guilty on Count 2 and that is -- seems to  
18 be inconsistent in our eyes, that that is an appropriate  
19 verdict.

20 THE COURT: As a practical matter, I can't imagine  
21 that that would occur. Either they're going to find him on  
22 both or neither. So I mean, as far as that goes...

23 MR. PISSETZKY: There's a lot of splitting the baby,  
24 Judge. Juries love to do that.

25 MS. BABU: And they're allowed to do that, your

1 Honor.

2 THE COURT: What?

3 MR. PISSETZKY: To split the baby.

4 THE COURT: I'm allowed to do that?

5 MR. HYMAN: They may not be allowed, but they do it.

6 THE COURT: What about the Bible?

7 MR. PISSETZKY: Well, the Bible comes into their  
8 mind, and then they do split the baby.

9 THE COURT: All right.

10 MR. PISSETZKY: It's not Moses.

11 THE COURT: I'm inclined to agree with the government  
12 that it's possible, so we can clean it up afterwards. You  
13 know, if something happens inconsistently, we'll take care of  
14 it then. So I think your verdict form is consistent with your  
15 position. Is that right?

16 MS. BABU: It's in -- your Honor, the version I sent  
17 last night does include the defendant's language in brackets.  
18 We can clean that up at a break.

19 THE COURT: I thought it didn't on mine.

20 MS. BABU: I sent -- I apologize, your Honor. We  
21 sent a version on Friday evening and then another version last  
22 night.

23 THE COURT: Oh, okay. So anyway, so you need to redo  
24 that one.

25 MS. BABU: Correct, your Honor.

1 THE COURT: And I think -- anything else on the  
2 record on the instructions?

3 MS. BABU: No, your Honor.

4 THE COURT: The defendant's happy with the  
5 instructions?

6 I think on the record, the one instruction that was  
7 submitted, and I just want the record to be clear, the other  
8 acts, 404(b) instruction, the defendants do not want that.

9 MR. HYMAN: Correct.

10 THE COURT: Is that correct?

11 MR. HYMAN: Correct.

12 THE COURT: Okay. So that has not been --

13 MS. BABU: Correct, your Honor.

14 THE COURT: That will not be given to the jury.  
15 Anything else? As soon as --

16 MR. HYMAN: I'm going to get the -- can I bring this  
17 witness in --

18 THE COURT: Yes, bring the witness in.

19 MR. HYMAN: -- and let him sit up there?

20 THE COURT: And then we'll be ready to go.

21 MR. HYMAN: All right.

22 THE COURT: I'll see if our jurors are here.

23 (Proceedings heard in open court. Jury in.)

24 THE COURT: Please be seated.

25 Good morning, members of the jury. When we left

1 Friday, the government had rested. And we're here this  
2 morning for the defense witnesses.

3 This is your first witness; is that correct?

4 MR. HYMAN: Yes, your Honor.

5 THE COURT: Would you raise your right hand, sir?

6 (Witness sworn.)

7 THE WITNESS: I do.

8 THE COURT: Please be seated.

9 Counsel, you may question the witness.

10 SERGEANT NEIL EVANS, DEFENDANT'S WITNESS, SWORN

11 DIRECT EXAMINATION

12 BY MR. HYMAN:

13 Q. Would you tell the members of the jury your name?

14 A. Sergeant Neil Evans.

15 Q. And where are you a sergeant?

16 A. In the 4th District for the Chicago Police Department.

17 Q. In May of 2018, were you a detective in the -- with the  
18 Chicago Police Department?

19 A. That's correct.

20 Q. And where were you assigned?

21 A. To Unit 180.

22 Q. Tell us what Unit 180 is.

23 A. Unit 180 is the investigative response team.

24 Q. So you were at a particular area within the city of  
25 Chicago that you covered?

1 A. We covered citywide.

2 Q. Did you -- before on May 4th of 2018, how long had you  
3 been a Chicago policeman?

4 A. Approximately 16 years.

5 Q. Sergeant Evans, that's a subpoena for your appearance in  
6 this courtroom, correct?

7 A. Correct.

8 Q. And that called for your appearance on Friday, correct,  
9 the 14th?

10 A. Correct.

11 MR. EICHENSEER: Your Honor, can we be heard for a  
12 moment?

13 MR. HYMAN: I'll move on. I'm not going to ask him  
14 anything else.

15 THE COURT: Move on. He's here pursuant to a  
16 subpoena.

17 BY MR. HYMAN:

18 Q. Right. Sergeant Evans, I asked you before we started if  
19 you would talk to me, and you told me, "Only on the witness  
20 stand," true?

21 A. Correct.

22 Q. Sergeant Evans, you did not bring anything with you in  
23 this -- to this courtroom today, did you, no reports?

24 A. No.

25 Q. And before we started, I gave you a book that contained

1 your typed reports and also any handwritten notes that you had  
2 taken that day, true?

3 A. True. I didn't look through the whole thing, but...

4 Q. But I said feel free to look at certain records, and I  
5 directed you to specific points within that report, correct?

6 A. Correct.

7 Q. At the time that you were -- I'm twisting my tongue here  
8 this morning. On May 4th of 2018, were you asked to go to an  
9 area 44th and Hermitage?

10 A. Correct.

11 Q. How did you -- who told you to go there?

12 A. My sergeant called me.

13 Q. And when you went there, what was your understanding of  
14 why you were going there?

15 A. When I was notified, I was notified that there was an  
16 officer-involved shooting and that an ATF special agent was  
17 shot.

18 Q. Now, when you headed to that scene, did you call any  
19 forensic evidence team to join you?

20 A. I did not make any notifications. The notifications were  
21 made from the scene by others.

22 Q. When you got about, can -- do you recall what time you got  
23 there?

24 A. It's in my notes if approximate --

25 Q. If it helps, if you can just quickly refer to it, help you

1 refresh your memory.

2 (Pause.)

3 Did you find it?

4 A. Approximately 0415 hours.

5 Q. Which means 4:15 in the morning?

6 A. Correct.

7 Q. And you learned that that shooting had occurred -- had  
8 happened just about an hour before that, true?

9 A. Approximately, yeah.

10 Q. When you get there, when you get there, there are a lot of  
11 officers there, true, a lot of different policemen walking  
12 around, looking around?

13 A. Yes.

14 Q. Did you see when you approached -- when you got there, did  
15 you talk to any of the agents who had worked in this mission,  
16 the ATF agents?

17 A. I may have. I know I was trying to collect information as  
18 far as where key evidence was, so I think if I had, they may  
19 have pointed out where some things were.

20 Q. You learned, did you not, that there was a -- shots were  
21 fired on Hermitage and struck this officer as he was crossing  
22 the street at 44th and Hermitage, true?

23 A. Correct.

24 Q. And you also learned that another officer, a Chicago  
25 police officer assigned to this case, an officer by the name

1 of Spratte, fired his own weapon, true?

2 A. True.

3 Q. When you first saw -- when you first got there, was  
4 Officer Spratte there?

5 A. He was not on scene.

6 Q. He was not on the scene?

7 A. He was not on the scene.

8 Q. There is a system that the detective division uses that --  
9 where they write notes and then they transcribe those notes on  
10 to an official case report, true?

11 A. True.

12 Q. Those notes are kept in the ordinary course of your  
13 business, right?

14 A. Yes.

15 Q. Those are known as GPRs?

16 A. Correct, general progress reports.

17 Q. At some point that morning, you spoke to Mr. -- Officer  
18 Spratte, right?

19 A. Correct.

20 Q. You understood that he was the officer involved in this  
21 case who fired his weapon, true?

22 A. True.

23 Q. And when you spoke to Officer Spratte, he was not under  
24 any medication, was he?

25 MR. EICHENSEER: Object to the foundation, your

1 Honor.

2 THE COURT: Excuse me?

3 MR. EICHENSEER: Object to the foundation.

4 THE COURT: Overruled.

5 MR. HYMAN: Go ahead.

6 THE COURT: He can answer if he knows.

7 BY MR. HYMAN:

8 Q. You can answer.

9 A. I wouldn't have any idea. There was nothing indicated to  
10 me that he was.

11 Q. You were able to talk to him freely, correct?

12 A. Correct.

13 Q. He didn't indicate to you that he was not able to talk to  
14 you, did he?

15 A. There was nothing -- like, when I was able to interview  
16 him, there was nothing --

17 Q. Wrong with him?

18 A. Nothing that precluded him from speaking to me.

19 Q. Okay. And when you spoke to him and asked him what  
20 happened, he told you and which you wrote down in your GPR  
21 that there was an unknown -- unknown person with a white  
22 shirt, and he saw an unknown person with a white shirt and two  
23 muzzle flashes, true?

24 A. Can I check my notes?

25 Q. Please, to help you refresh your memory, absolutely. And

1 I think I may have -- as you had seen, I sort of put a little  
2 tab on that section on the GPRs.

3 A. Thank you.

4 There is no indication. He didn't say -- specify how  
5 many muzzle flashes.

6 Q. Okay. You've read that statement?

7 A. I saw -- I see it in the GPR, yes.

8 Q. He did tell you, the words that he used were he saw an  
9 unknown, unknown with white T-shirt and muzzle flashes?

10 A. An unknown individual on the street with a white shirt,  
11 and in that vicinity, he saw muzzle flashes, yes.

12 Q. Right. And did he say he saw it on the sidewalk on the  
13 north side of the street?

14 A. He saw it northbound of his location on the west sidewalk  
15 in the 4300 block.

16 Q. And then you typed that -- you took that note and you  
17 typed it, correct?

18 A. Correct.

19 Q. Into your official report?

20 A. Correct.

21 Q. And in that report, you said the same, that Officer  
22 Spratte talked to you and that he saw an unknown person in a  
23 white T-shirt and muzzle flashes, true?

24 A. Yes.

25 Q. Did he say to you that he saw someone in a white shirt

1 standing in the street, or did he say sidewalk?

2 A. I have recorded here "sidewalk."

3 Q. Did he tell you in your talking to him that he did not  
4 recall when he saw this unknown individual? Is that written  
5 in your -- did you write that?

6 A. I'm sorry. Can you say that again, sir?

7 Q. Sure. Did he tell you that he did not recall when he saw  
8 the individual?

9 A. He explained to me while he was going for cover, when he  
10 heard the initial gunshots and he turned and he looked, he saw  
11 a person with a white T-shirt. He also saw muzzle flashes in  
12 that vicinity.

13 Q. Sergeant Evans, I want to leave that subject now, and I  
14 want to talk to you about scene preservation of evidence if  
15 that's okay.

16 A. Sure.

17 Q. In your experience as a detective and in your training as  
18 a detective, the scene preservation or the scene safety is of  
19 great importance, true?

20 A. Correct.

21 Q. You don't want anything to be contaminated, right?

22 A. Correct.

23 Q. And when you got to the scene, were you told by either a  
24 Chicago police officer or an ATF officer that they had found  
25 any cartridge casings?

1 A. When I initially responded?

2 Q. Yes.

3 A. No.

4 Q. As you were there, you were -- I presume you were there a  
5 good part of the morning?

6 A. I was, but I was alerted to the shell casings that were  
7 ultimately PO Spratte's. I was not alerted to where the  
8 suspect fired from at that point.

9 Q. Those casings were on 44th Street near the park, right?

10 A. Those were Spratte's, correct.

11 Q. Did you also learn as you were there that day that there  
12 were an originally -- originally four shell casings found in a  
13 gangway at 4332 South Hermitage?

14 A. I had -- can I check the notes here --

15 Q. Please.

16 A. -- to make sure. It could have been -- I think it was a  
17 different number off of memory. I should check.

18 (Pause.)

19 When I was alerted -- when I was alerted, it was five  
20 spent casings.

21 Q. Five?

22 A. Correct.

23 Q. You didn't know that there were just initially four found?

24 A. I was alerted to five.

25 MR. HYMAN: Can you put up, if we can turn on --

1 THE COURT REPORTER: Do you need it switched?

2 MR. HYMAN: No, that's okay.

3 BY MR. HYMAN:

4 Q. Sergeant Evans, do you know who found those casings?

5 A. I do not.

6 Q. Did you request as the detective, the lead detective in  
7 this case, that those casings be sent to the crime lab for  
8 fingerprint impressions?

9 A. I believe that they may have been. I believe so.

10 Q. You don't know?

11 A. If I can see the -- I need to see the crime scene  
12 processing report.

13 Q. Is it in with your records?

14 A. My understanding, counsel, is it's very hard to get  
15 fingerprint --

16 Q. That's not the question I asked, Sergeant. That's -- I  
17 know you wanted to say that. My question to you is very  
18 specific.

19 A. Correct.

20 Q. Did you request that there be a latent print examination  
21 of those cartridge casings?

22 A. I believe -- I believe there was a determination between  
23 us and the forensic services section and the ATF that we may  
24 have attempted to do that, but I can't find it in this report,  
25 in this book.

1 Q. Are you familiar with gunshot residue?

2 A. Yes.

3 Q. Is there a test for gunshot residue?

4 A. Yes.

5 Q. Have you used that or requested that?

6 A. In this case?

7 Q. Not -- not in this case specifically but any of the cases  
8 that you had as a detective.

9 A. Yes.

10 Q. All right. And you -- and your understanding is gunshot  
11 residue can be transferred from your hands to your clothes,  
12 correct?

13 A. Correct.

14 Q. Sergeant Evans, I wanted to go back -- even though I said  
15 we were going to leave that statement, I wanted to go back to  
16 the statement that Mr. -- Officer Spratte made was  
17 specifically that there was an unknown person wearing a white  
18 T-shirt with muzzle flashes on the sidewalk on the north side,  
19 northwest side, right? Not in the vicinity but on the  
20 sidewalk, true?

21 A. No. I have, "saw muzzle flashes northbound from his  
22 location on the west sidewalk."

23 Q. On the west sidewalk, not in the vicinity but that -- the  
24 word "in the vicinity," he never used that word, did he?

25 A. I didn't have it --

1 Q. Right. And if he had used the word, you probably more  
2 likely true than not, you would have put that in there, right?

3 A. If -- if he would have said it that day, I would have put  
4 it in the report. It would have been here.

5 MR. HYMAN: Your Honor, nothing else.

6 THE COURT: Cross-examine?

7 MR. EICHENSEER: Briefly, your Honor.

8 CROSS-EXAMINATION

9 BY MR. EICHENSEER:

10 Q. Sergeant Evans, when you interviewed Officer Spratte that  
11 morning, what time was it?

12 A. I don't remember the exact time.

13 Q. But Officer Spratte was not on the scene when you first  
14 got to the scene --

15 A. No.

16 Q. -- right?

17 Do you know where he was?

18 A. I believe he was getting treatment at a hospital.

19 Q. So did you interview him after he got back from the  
20 hospital?

21 A. I did.

22 Q. Did Officer Spratte ever tell you that he fired at a  
23 person in a white T-shirt?

24 A. No.

25 Q. I want to -- Mr. Hyman asked you some questions about --

1 and by the way, you arrived at the scene after the shooting,  
2 right? You were not there for the shooting, correct?

3 A. I was not.

4 Q. Mr. Hyman asked you some questions about scene  
5 preservation. Do you remember those?

6 A. Yes.

7 Q. Where was the crime scene when you arrived? What were the  
8 parameters of it?

9 A. It was primarily located near the intersection of 44th and  
10 Hermitage.

11 Q. You can use the map if you want.

12 A. Sure. The circle in the middle of 44th and Hermitage is a  
13 traffic circle. The shell casings were located -- from  
14 Spratte were on the southeast corner, generally located near  
15 the southeast corner, and Special Agent Crump was struck by  
16 the round over on the -- toward the southwest corner.

17 Q. The crime scene itself, did it extend across 44th Street  
18 on Hermitage? You can stand up and show the jury.

19 A. Sure. So we tried to make as big an area as we could  
20 because there were so many unknowns when we first got there as  
21 far as where the offender was.

22 MR. PISSETZKY: I can't hear him, Judge.

23 THE COURT: You have to speak a little louder since  
24 you're not on the microphone.

25 BY MR. EICHENSEER:

1 Q. You have to speak up, sir.

2 A. We tried to make the scene -- when I got to the scene, it  
3 was already established. It was already a large scene because  
4 there was so many unknowns that we didn't know where -- where  
5 evidence would be located. We didn't know where the shooter  
6 fired from initially.

7 So the crime scene encompassed traffic being blocked  
8 for traffic and vehicle traffic from Marshfield, 43rd to 45th  
9 and over to Wood Street. It was quite a large scene, but we  
10 had a large scene because there were a lot of unknowns.

11 Q. Was Hermitage taped off between 43rd and 45th?

12 A. Was Hermitage? There was some -- there was an inner  
13 perimeter and outer perimeter, so we did have that.

14 Q. Okay. Where was the -- do you have any recollection of  
15 where the inner perimeter was?

16 A. The inner perimeter was in the vicinity of where the blood  
17 from Special Agent Crump was and in the grass area. There was  
18 a fired bullet located down the street here approximately 4416  
19 on the parkway. So we tried to -- we tried to cordon it off  
20 with tape as far as the inner perimeter where that evidence  
21 was located.

22 Q. Did the outer perimeter extend up to 43rd on Hermitage?

23 A. Yes.

24 Q. You can sit down again.

25 Did you or anybody on your team do a canvas of the

1 crime scene?

2 A. Yes.

3 Q. Can you just tell the --

4 MR. PISSETZKY: Your Honor, objection to foundation,  
5 who did it, because he testified before that he doesn't know  
6 who collected the shell casings.

7 THE COURT: All right. Who collected -- let's see.  
8 Who was on the team, I guess.

9 BY MR. EICHENSEER:

10 Q. Can you tell the jury what a canvas is first?

11 A. A canvas is done in order to locate evidence, locate  
12 witnesses. There was detectives from Area Central that  
13 assisted us with the canvas.

14 Q. Okay. So you personally were involved in the canvas?

15 A. I did do some interviews in the canvas to look for  
16 witnesses.

17 Q. Okay. Did you also walk around to look for evidence, too?

18 A. Correct.

19 Q. Were you the only person that was part of the canvas team,  
20 or were there other people that you saw doing canvassing?

21 A. There was other people.

22 Q. And during those other canvasses, did you become aware of  
23 any other shell casings on the scene besides those five in the  
24 gangway and the two that Officer Spratte fired?

25 A. No.

1 MR. EICHENSEER: No further questions, your Honor.

2 THE COURT: Anything further?

3 MR. HYMAN: Yes, Judge, if I may.

4 REDIRECT EXAMINATION

5 BY MR. HYMAN:

6 Q. All the canvassing that was done that morning, you had no  
7 description of a shooter other than you saw -- Officer Spratte  
8 saw someone in a white shirt and then muzzle flashes, true?

9 A. True. We had no eyewitness.

10 Q. And all you heard -- all your canvassing produced were  
11 people who told you that they had heard the shots, true?

12 MR. EICHENSEER: Objection to hearsay, your Honor.

13 THE COURT: Overruled. He can answer.

14 BY THE WITNESS:

15 A. The majority of the canvas result was people hearing  
16 gunshots.

17 BY MR. HYMAN:

18 Q. No one saw a thing?

19 A. No one saw -- no one eyewitnessed the shooting, no.

20 THE COURT: You can step down. You're discharged.

21 (Witness excused.)

22 THE COURT: Further defense witnesses?

23 MR. PISSETZKY: Your Honor, we're going to call Beau  
24 Jacobsen, please.

25 THE COURT: All right.

1           Mr. Jacobsen, you're still under oath. Do you  
2 understand that?

3           THE WITNESS: Yes, sir.

4           Do you want this back, sir?

5           MR. PISSETZKY: Thank you. I'll grab it.

6           First the ELMO but not publish it to the jury.

7           BEAU JACOBSEN, DEFENDANT'S WITNESS, PREVIOUSLY SWORN

8                                 DIRECT EXAMINATION

9           BY MR. PISSETZKY:

10          Q. Good morning.

11          A. Good morning, sir.

12          Q. Can you remind the jury who you are?

13          A. Beau Jacobsen.

14          Q. And you are with?

15          A. ATF.

16          Q. And you are the case agent?

17          A. Correct.

18          Q. That means that all the evidence or the majority of the  
19 evidence went through you. You were sitting here in court,  
20 and you are pretty familiar with this case, correct?

21          A. Yes, sir.

22          Q. I'm going to show you what I've marked as Godinez Picture  
23 28. Do you recognize this?

24          A. Yes, sir.

25          Q. Is that a picture that -- what is it of?

1 A. It's a picture of an individual who's standing essentially  
2 on the west sidewalk of Hermitage looking northbound.

3 Q. On Hermitage?

4 A. Yes.

5 Q. And you recognize it to be the abandoned house at 4333, I  
6 believe, South Hermitage?

7 A. Yes, it appears so.

8 Q. And does it look like an accurate depiction of the way  
9 that the scene looked on May 4, 2018?

10 A. Yes, it appears so.

11 MR. PISSETZKY: Your Honor, I would ask that the  
12 picture be admitted and published.

13 THE COURT: Any objection?

14 MS. BABU: No, your Honor.

15 THE COURT: You may publish. It's admitted. You may  
16 publish.

17 (Godinez Picture 28 received in evidence.)

18 BY MR. PISSETZKY:

19 Q. Thank you. And so on the right-hand -- on the left-hand  
20 side, you see the green awning that we talked about before,  
21 correct?

22 A. Yes.

23 Q. And then there's those boarded doors or entranceway?

24 A. Yes.

25 Q. Now, can you see the camera, the private camera that we

1 saw the recording from, the black-and-white recording that has  
2 a view of the north and the south of the street?

3 A. Yes, I --

4 THE COURT: We just lost the picture.

5 (Pause.)

6 BY MR. PISSETZKY:

7 Q. You don't see it on your thing, right?

8 A. No, I do not.

9 THE COURT: Nor do I.

10 MR. PISSETZKY: Nor do I.

11 I think I broke something.

12 THE COURT: There we go.

13 (Pause.)

14 BY MR. PISSETZKY:

15 Q. So do you see the camera?

16 A. Yes. You said the two different directions, though.

17 Q. Yes, the camera that is the private camera on the house.

18 A. I believe how they set up is, there's two separate cameras  
19 on the front of the house.

20 Q. Okay.

21 A. One is facing to the north and one is facing to the south.

22 Q. And can you circle where the vicinity -- or that area  
23 where it is? There's that little bump in there, right, right  
24 in the middle there?

25 A. Yes.

1 Q. So that's the camera. Now, when you collected the  
2 evidence, you also, you or your brother agents collected the  
3 actual videos that we saw in court, correct?

4 A. Yes.

5 Q. And last week, you described that you watched the video of  
6 south Hermitage, the camera that was going north, right?

7 A. Yes.

8 Q. And you watched it relative to the time of the shooting,  
9 correct?

10 A. Yes.

11 Q. Okay. And I think last week, you testified from your  
12 memory that you don't remember seeing anybody in white north  
13 of where the camera is, correct?

14 A. I don't understand the question. Sorry.

15 Q. Well, you remember, there's some testimony about a person  
16 wearing a white T-shirt.

17 A. Yes.

18 Q. And Officer Spratte said that he saw him down the  
19 street --

20 A. Yes.

21 Q. -- or somewhere in the vicinity, right?

22 A. Yes.

23 Q. And you reviewed the cameras, correct?

24 A. Correct.

25 Q. And so I'm going to -- can we -- so is this -- do you see

1 it on your screen?

2 A. I just have the court emblem on my screen, no picture.

3 I have the video now, it appears.

4 THE COURT REPORTER: Can it be published to the jury?

5 THE COURT: I've got one.

6 MR. PISSETZKY: Do you mind if we publish it because  
7 he can't see it?

8 THE WITNESS: I can see the video now.

9 BY MR. PISSETZKY:

10 Q. Oh, yes. You see the video?

11 A. Yes.

12 Q. You see the video. So does this accurately depict the  
13 video that shows the north side of Hermitage?

14 A. This is the view of -- yes.

15 Q. Of the video?

16 A. Facing north, yes.

17 MR. PISSETZKY: Okay. I would ask for it to be  
18 marked as Godinez Video 3 and publish it, Judge.

19 MS. BABU: Your Honor, foundation as to time.

20 MR. PISSETZKY: Well, the timestamp is on the video.  
21 So it's starting at 3:19 a.m. Do you see that?

22 THE COURT: All right. You may publish. It's  
23 already -- is this already in evidence, this portion?

24 MR. PISSETZKY: I think we stipulated to the  
25 foundation of it --

1 THE COURT: All right.

2 MR. PISSETZKY: -- because it's all the videos.

3 THE COURT: It's in evidence. You may play it.

4 BY MR. PISSETZKY:

5 Q. Thank you. And do you see the video -- I'm playing it to  
6 the jury.

7 (Said video recording played in open court.)

8 Do you see the video, the timestamp starts at 3:19  
9 approximately?

10 A. Yes.

11 Q. And as we know, this video, the timestamp is about two  
12 minutes fast, ahead?

13 A. Roughly, yes.

14 Q. And so the agent's car, the unmarked undercover car would  
15 be driving into the area roughly around 3:20 and a few  
16 seconds, correct?

17 A. That sounds correct, yes.

18 Q. And we see a car approaching, correct?

19 A. Yes, we see a car approaching.

20 Q. And that appears to be the agent's car, right?

21 A. Yes, it appears to be so.

22 Q. And so far, there's nobody on the street, correct?

23 A. No.

24 Q. Or the sidewalk?

25 A. No.

1 Q. And incidentally, you can see the house number on the  
2 bottom, 4324, that's where the cameras were mounted, right?

3 A. That's correct, sir.

4 Q. Still nobody with a white shirt on the street or anybody,  
5 for that matter at all?

6 A. No, I don't see anyone.

7 Q. And you can see all the way up to 43rd Street, correct,  
8 pretty much?

9 A. Yes, it appears so.

10 Q. And this is already a squad car after the shooting, right,  
11 a police car driving with the lights flashing?

12 A. I believe that is the vehicle that transported Agent  
13 Crump.

14 Q. So that's already after the shooting, right, and after  
15 Officer Spratte said that he already shot by that time?

16 A. Yes.

17 Q. And we have not seen one person with a white T-shirt or  
18 any other shirt north on 4 -- on Hermitage?

19 A. No, you have not seen anybody on this camera.

20 Q. So the only time that we see in that -- the only  
21 individual with a white T-shirt was in the -- an individual  
22 that we saw actually closer to 44th Street on the -- in the  
23 alley shortly before the shooting, right?

24 A. Of all the videos?

25 Q. Right.

1 A. The only time I remember seeing a white shirt is, yes, in  
2 the alley south almost at 44th, yes.

3 MR. PISSETZKY: May I have a moment, Judge?

4 (Pause.)

5 MR. PISSETZKY: Thank you.

6 THE COURT: Anything further?

7 MS. BABU: Just two questions, your Honor.

8 CROSS-EXAMINATION

9 BY MS. BABU:

10 Q. Agent Jacobsen, Mr. Pissetzky just asked you some  
11 questions about the video in which an individual in the white  
12 T-shirt appeared in the alley. Do you remember that?

13 A. Yes.

14 Q. That was video footage from the alley camera at 4324  
15 facing south, correct?

16 A. Yes.

17 Q. And the timestamp on that video was 2:52 a.m., correct?

18 A. Yes.

19 Q. And that's corrected for the error in the timestamp on  
20 that private surveillance camera?

21 A. That's correct.

22 Q. So the real time is approximately 2:52 a.m.?

23 A. Yes.

24 Q. And what time was the shooting of Special Agent Crump?

25 A. Approximately 3:18.

1 MS. BABU: Thank you.

2 MR. PISSETZKY: Judge, I would object. That was more  
3 than two questions.

4 THE COURT: If I was going to enforce that rule, the  
5 case would never end.

6 You can step down. You're excused.

7 (Witness excused.)

8 THE COURT: Call your next witness.

9 MR. PISSETZKY: Can I go outside and make sure that  
10 he's here?

11 THE COURT: Pardon?

12 MR. PISSETZKY: I've got to go and find him.

13 (Pause.)

14 THE COURT: Who is the next witness?

15 MR. PISSETZKY: Judge, can we have a sidebar for just  
16 a second?

17 (Proceedings heard at sidebar:)

18 MR. PISSETZKY: He's our investigator that was out on  
19 the scene. Agent Jacobsen told me that he doesn't recognize  
20 these pictures. These are the pictures from the alley. You  
21 know, we took them. And Agent Jacobsen took a picture from  
22 where the traffic bump is looking that way. I wanted him to  
23 recognize these saying that this is the same alley, a picture  
24 going the opposite way, but he is not willing to do that.

25 So unless the government is stipulating, would be

1 able -- would be willing to stipulate to these two pictures,  
2 I'm waiting for my investigator to come in here and just say  
3 this is the alley.

4 MS. BABU: Can you just point out to me exact -- I'm  
5 disoriented here looking at this.

6 MR. PISSETZKY: So this is the back of 43 --

7 MS. BABU: This is the fence?

8 MR. PISSETZKY: Yes. The fence is the 4344 South  
9 Hermitage, and that's, these are the garbage cans, and this is  
10 a picture --

11 MR. EICHENSEER: The gangway is this direction?

12 MS. BABU: This is on the west side of the alley?

13 MR. PISSETZKY: Right. And then this is the gangway  
14 going north.

15 MS. BABU: And this is the east side of the alley?

16 MR. PISSETZKY: Yes.

17 MS. BABU: That's fine.

18 THE COURT: Okay.

19 MR. PISSETZKY: Okay. Great. Thank you.

20 THE COURT: How do you want to do it? Do you want to  
21 just -- describe it, say by agreement?

22 MR. PISSETZKY: Yes.

23 THE COURT: Okay.

24 (Proceedings heard in open court:)

25 THE COURT: All right. Proceed.

1           MR. HYMAN: Your Honor, by way of stipulation between  
2 the parties, Mr. Godinez and the government will agree that  
3 photo number -- Godinez Picture No. 29 is a true and accurate  
4 depiction of the alley behind Hermitage, and it's the view,  
5 the south view of the alley right by 4344 South Hermitage.

6           So stipulated?

7           MS. BABU: Yes.

8           THE COURT: Okay.

9           MR. PISSETZKY: And --

10          THE COURT: You can publish that -- or have you  
11 already?

12          MR. PISSETZKY: Thank you. And then Mr. Godinez and  
13 the government will stipulate that this is a true and accurate  
14 photo of the alley behind -- the alley behind Hermitage with a  
15 north view where you can see the end of the alley is 43rd  
16 Street. And just as a reference point to -- of this picture,  
17 there's, like, a driving bump here.

18          THE COURT: Speed bump.

19          MR. PISSETZKY: A speed bump. Thank you. The word  
20 escaped me. A speed bump that we saw yesterday -- or last  
21 week in the picture that Agent Jacobsen took with a view south  
22 from there. So that's just for --

23          THE COURT: All right.

24          MR. PISSETZKY: -- the view. And I would ask for it  
25 to be admitted.

1 THE COURT: They're admitted. You can publish them,  
2 or you already have.

3 MR. PISSETZKY: Thank you.

4 THE COURT: All right. Further defense witnesses?

5 MR. HYMAN: Your Honor, ladies and gentlemen of the  
6 jury, with that, Mr. Godinez rests his case in chief.

7 THE COURT: Okay. Members of the jury, you now  
8 heard -- any rebuttal testimony?

9 MS. BABU: No, your Honor.

10 THE COURT: Okay. So both sides now rest. You've  
11 got all the evidence, members of the jury. We're going to  
12 take about a 10-minute recess while -- then we'll have the  
13 final arguments on both sides. The government will go first  
14 followed by the defense and then the government's rebuttal.

15 So take the jurors out.

16 (Proceedings heard in open court. Jury out.)

17 THE COURT: Just on the record, each side gets an  
18 hour and 20 minutes. The government will split it, about an  
19 hour --

20 MS. BABU: Yes, your Honor.

21 THE COURT: -- and then 20.

22 MS. BABU: Your Honor, do you expect --

23 THE COURT: We'll probably take a break after yours  
24 because otherwise, it will be a pretty long time.

25 MS. BABU: Thank you, your Honor.

1 THE COURT: All right. We'll start at a quarter to.

2 (Recess from 10:34 a.m. to 10:44 a.m.)

3 (Proceedings heard in open court. Jury in.)

4 THE COURT: Please be seated.

5 Members of the jury, you've now heard all the  
6 evidence. As I indicated, we'll now hear the closing  
7 arguments of the lawyers. This is their opportunity to bring  
8 everything together and to give you -- to suggest to you how  
9 you should interpret the evidence that you've heard during the  
10 course of the trial.

11 It is designed to be helpful to you to, A, you'll get  
12 their views on how you should decide the case and, B, it will  
13 kind of bring things together, perhaps refresh your  
14 recollection as to what you heard during the course of the  
15 trial.

16 The one caveat is, as is the case with opening  
17 statements, closing arguments by the lawyers are not in and of  
18 themselves evidence. If an attorney in the closing argument  
19 asserts a fact, conclusion of a fact that it's your collective  
20 recollection the evidence doesn't justify it you, of course,  
21 follow your own recollections of the facts, but again, they're  
22 designed to be helpful and you should, obviously, pay close  
23 attention to them.

24 The government goes first. You'll then hear from the  
25 defendant, and then you'll hear a rebuttal from the --

1 opportunity for rebuttal from the government, and then I will  
2 instruct you as to the evidence -- or the law as to the case,  
3 and then you will proceed to consider your verdict.

4 So, Mr. Eichenseer, you're giving the opening for the  
5 government?

6 MR. EICHENSEER: Correct, your Honor.

7 THE COURT: You may proceed.

8 CLOSING ARGUMENT ON BEHALF OF THE GOVERNMENT

9 MR. EICHENSEER: Thank you, your Honor.

10 Good morning, ladies and gentlemen. There's not too  
11 many people that are awake at 3:00 o'clock in the morning, and  
12 that's why an ATF team picked that time for a covert operation  
13 so they can do their job without being seen. And their job in  
14 the morning of May 4th last year was to replace some GPS  
15 trackers on cars in Back of the Yards.

16 Now, the ATF, what they didn't count on was that  
17 there was one person who was wide awake at 3:00 o'clock that  
18 morning: The defendant, Ernesto Godinez. And the defendant  
19 wasn't just awake that morning. He was out on the streets  
20 patrolling the neighborhood, methodically circling the blocks  
21 in that white Kia over and over again before pulling over by  
22 44th and Wood and waiting.

23 What was the defendant doing? He was on the lookout  
24 for rivals. He was protecting Saints territory. That was his  
25 job as a Saint. At 44th and Wood where he pulled over, that

1 was the heart of Saints territory.

2 Of course, ATF knew this. They knew what they were  
3 getting into. They had a plan that morning. They were going  
4 to send two teams in to do the trackers. The first was a  
5 scout team. They were going to make sure that the area was  
6 clear. At 3:15, that scout team drove right past the  
7 defendant at 44th and Wood and started to circle the block  
8 slowly.

9 Now, the defendant, he saw them do that. The scout  
10 team didn't see him. And, of course, the defendant didn't  
11 recognize the scout team as cops. These were two guys in  
12 plain clothes driving a brown Impala going 15 miles an hour  
13 circling his block slowly at 3:15 in the morning. In the  
14 defendant's eyes, these looked like rivals looking for  
15 trouble, like something was up.

16 When the defendant realized they were circling his  
17 block, he ran. He ran all the way up Wood Street, across 44th  
18 and into his front door, got a gun, and he came out moments  
19 later and kept running up the street, kept running up Wood  
20 Street, cut across the gangway, across that alley in back of  
21 his house into another gangway on Hermitage.

22 And that just wasn't any gangway. It was filled with  
23 Saints graffiti, signs of disrespect to rival gangs. It was a  
24 gang lookout. More importantly, it was a safe, protected spot  
25 where the defendant could see what was happening on Hermitage.

1 He could stand post without anybody seeing him.

2 The defendant stood at the mouth of that gangway with  
3 his gun at the ready. He didn't wait long because 30 seconds  
4 later, that second ATF team, the team with Agent Crump, drove  
5 right past the defendant, 20 or 30 feet away from where he was  
6 in that gangway.

7 Again, four guys in this car, plain clothes, unmarked  
8 car. What's more, the defendant sees this car pull over at  
9 the end of the block. Who gets out? Three guys get out,  
10 jeans, hooded sweatshirts, hoodies up, backs turned to  
11 defendant. They split into two groups and start walking down  
12 the sidewalk, and the car that dropped them off pulls away.

13 So in the defendant's eyes, the situation has  
14 escalated. He sees three rivals now stalking Saints territory  
15 on foot. And that was when the defendant chooses to act.  
16 That is when the defendant fires a hail of bullets down  
17 Hermitage Avenue. He stands at the mouth of that gangway, and  
18 he fired five shots down the street.

19 One of those shots struck Agent Crump in the neck.  
20 It tore through his head and it came out his face between his  
21 eyes. Agent Crump fell to the curb critically wounded. His  
22 partner turned around and returned two shots at the muzzle  
23 flashes that defendant created. And then the partners started  
24 running up the street towards the defendant.

25 The defendant heard those return shots. He saw guys

1 running towards him on the street. He knew he had to get out  
2 of that gangway and fast. And so just seconds after he fired  
3 his fifth and final shot, the defendant booked it out of that  
4 gangway all the way across the alley back on to Wood Street  
5 back into his house. He gets to his house. He texts his  
6 girlfriend. "Where you at" because he's ready to go now.

7 He steps outside. He wipes the sweat off his face.  
8 His girlfriend pulls up a few moments later. You saw that  
9 black car. She kills the lights. The defendant doesn't come  
10 out right away. He comes out a minute later out of the  
11 gangway. He walks down the sidewalk, gets in the passenger  
12 seat. He's still sweating. He leans back and he says, "I  
13 feel good. Fuck that flake."

14 Except it wasn't a flake that the defendant just  
15 shot. It was a federal agent. That, of course, is a federal  
16 crime, and that's why the defendant is sitting in this  
17 courtroom today charged with forcibly assaulting a federal  
18 agent in the line of duty.

19 As in any case, it's the government's burden to prove  
20 the defendant's guilt beyond a reasonable doubt. And, ladies  
21 and gentlemen, the government has met that burden at this  
22 trial. Through all the evidence that we've showed you over  
23 the last five days, we've taken you back to the morning of May  
24 4th, and we've recreated it on the screens and the speakers in  
25 the court -- in this courtroom.

1           And all of that evidence together, it proves to you  
2 beyond a reasonable doubt that it was the defendant who shot  
3 Agent Crump that morning. And I'm going to spend the rest of  
4 my time walking you through that evidence, showing you how the  
5 government met its burden.

6           But before I do that, I want to talk about the crime  
7 that the defendant is charged with. When you go back to  
8 deliberate, you'll have the indictment in this case, and that  
9 indictment charges the defendant with two crimes. The first  
10 is assault of a federal officer with a deadly or dangerous  
11 weapon and the second, Count 2, is the use and discharge of  
12 that firearm during the assault, during Count 1.

13           Now, I expect that the Court will instruct you that  
14 to find the defendant guilty on Count 1, the government has to  
15 prove to you four things beyond a reasonable doubt. Those  
16 things are called elements. The first one is that defendant  
17 forcibly assaulted Kevin Crump; the second, that at the time  
18 of the assault, Kevin Crump was an officer or employee of the  
19 United States performing his official duties; three, that the  
20 defendant acted knowingly; and finally, that in committing the  
21 assault, defendant either intentionally used a deadly weapon  
22 or intentionally inflicted bodily harm.

23           Now, there are several things about these elements  
24 that we don't need to spend a lot of time on, so I'm going to  
25 start with those. Number two is the first here because the

1 defendant and the government agree in this case that Agent  
2 Crump was an ATF agent on duty that morning. Number two, the  
3 second element, has been established.

4           You see some phrases that are underlined on the  
5 screen there: Forcibly assaulted, used a deadly weapon, or  
6 inflicted bodily harm. There's been really no dispute in this  
7 trial that Agent Crump was forcibly assaulted with a deadly  
8 weapon and suffered bodily harm.

9           You might ask, what is a forcible assault. And I  
10 expect the Court is going to instruct you that an assault is  
11 an attempt to inflict injury on another person. And that  
12 person commits assault forcibly when he makes physical contact  
13 with the person he assaulted or otherwise uses physical force  
14 to commit the crime.

15           Again, you saw plenty of evidence of that assault, of  
16 that bodily harm at this trial. You heard from Agent Crump  
17 himself. He explained how he was shot in the neck and the  
18 face. He explained about the days he spent in the trauma ICU.  
19 He explained the multiple reconstructive surgeries to his  
20 orbital bone and to his sinuses.

21           You saw Agent Crump's blood on the grass, on the  
22 curb, on the street. You saw the bullet that tore through his  
23 head. That's the bullet with Kevin Crump's DNA on it, marker  
24 No. 3 right there.

25           Ladies and gentlemen, there's no serious dispute that

1 Agent Crump was forcibly assaulted in this case with a  
2 dangerous or deadly weapon, i.e., a gun, and that he suffered  
3 bodily harm.

4           So that leaves the first and the third element, that  
5 the defendant forcibly assaulted Kevin Crump and that the  
6 defendant acted knowingly. And "knowingly" is a legal term I  
7 expect the Court to instruct you that a person acts knowingly  
8 if he realizes what he is doing and is aware of the nature of  
9 his conduct and does not act through ignorance, mistake, or  
10 accident.

11           And that makes sense when you think about it, right.  
12 It's not a crime to accidentally hurt somebody, mistakenly  
13 injure somebody. You've got to know what you're doing.  
14 Ladies and gentlemen, the defendant knew exactly what he was  
15 doing. He acted knowingly in this case.

16           Now, there's an important -- there's another  
17 important part of this instruction. It's a very important  
18 part of this case. And I expect that the Court is going to  
19 instruct you that it is not necessary that the defendant knew  
20 that the person he assaulted was a federal officer.

21           And, in fact, that's what the evidence in this case  
22 shows, that the defendant mistook Agent Crump for a rival gang  
23 member that morning. But that mistake, that doesn't matter  
24 for purposes of the evidence. All the government needs to  
25 show is that the defendant knowingly assaulted someone.

1           So that leaves the first element. And the government  
2 submits to you that that has been the real issue at this  
3 trial, whether the government has proved that it was the  
4 defendant -- beyond a reasonable doubt that the defendant  
5 forcibly assaulted Kevin Crump, that the defendant shot Agent  
6 Crump in the head that morning.

7           And, ladies and gentlemen, we submit the answer to  
8 that question is yes through all the evidence that you saw and  
9 heard and that I'm going to go through. This is just some of  
10 that evidence. Remember, you had video of him going into the  
11 gangway where the shots were fired before and then booking out  
12 of that gangway seconds later.

13           We have the five shell casings he left behind after  
14 he ran. You heard the five shots themselves. That was that  
15 audio recording you heard. And you had ShotSpotter that  
16 located those five shots right by where the defendant was  
17 standing in that gangway.

18           We saw Officer Spratte. He saw muzzle flashes in the  
19 area of that gangway. And you had the defendant's own words,  
20 "Fuck that flake." Those are admissions that the defendant  
21 made. You have DNA and ballistics that tied together the  
22 casings, the bullets, Kevin Crump. All of it comes together.  
23 You saw Snapchat and phone records putting the defendant all  
24 over the crime scene before, during, and right after the  
25 shooting. You have all the evidence about the Latin Saints.

1           And, ladies and gentlemen, to be clear, the  
2 government does not have to prove why the defendant shot Agent  
3 Crump that morning. But we showed you this gang evidence so  
4 you can understand why he shot Agent Crump that morning, what  
5 he was doing, why he ran when he saw that scout team, why he  
6 went to his house to get a gun, why he chose that gangway with  
7 all the graffiti, why, most importantly, why he chose to shoot  
8 at three strangers wearing hooded sweatshirts in the back at  
9 3:15 in the morning and why he said, "Fuck that flake" when he  
10 was done. It all shows that he, of all people, had motive to  
11 shoot Agent Crump because he thought it was a flake.

12           And finally, you have what defendant did after the  
13 shooting. He changes his clothes. He ditches the hat. He  
14 tells his girlfriend or he tells his baby's mother, "I'm  
15 sorry." He does all these other things that shows the  
16 consciousness of his guilt.

17           Now, I'm going to spend my -- the rest of my time  
18 walking you through this evidence right here. And as I do  
19 that, each of these pieces standing by themselves may not tell  
20 you everything. Think of them kind of like puzzle pieces  
21 scattered on the floor. They may not show you the whole  
22 picture. They give you a part of it.

23           But as you start putting the pieces together and they  
24 start coming together and interlocking, the picture becomes  
25 clearer and clearer. And the clear picture here beyond a

1 reasonable doubt is that the defendant shot Agent Crump in the  
2 head that morning.

3           So you saw a lot of video in this trial. And I'm  
4 going to use the video footage to walk you through this  
5 evidence because it provides a helpful timeline. It allows  
6 you to orient yourselves in time and space and understand what  
7 you're seeing.

8           You'll have those videos when you go back to  
9 deliberate. They're important pieces of evidence in this  
10 case. It's Exhibits 110 and 111. 110, as you may remember,  
11 is the screen with the five different panes in it, and 111 is  
12 the screen with a single pane, a single camera view. And ATF  
13 video forensic expert Steve Greene is the one who put those  
14 together and synchronized them so they all play back at the  
15 same time. And that's what I'm going to use to walk you  
16 through the evidence right here.

17           So 2:59, this is 19 minutes before the shooting,  
18 defendant leaves his house here with his phone. That's his  
19 white Kia right in front of him. That white Kia has been in  
20 the driveway for a while. He's already pulled it in and  
21 pulled back out. He's parked it there.

22           And this is just to show you one of many examples of  
23 the defendant in various places that you've seen in this  
24 trial. And there's no serious dispute that in all this  
25 footage, that's -- the defendant right there is the guy that

1 you see in this footage. Defendant didn't dispute that in his  
2 opening statement or during this trial but, nonetheless, it's  
3 the government's burden. So we should talk about the evidence  
4 that shows overwhelmingly that that's him in the video.

5           You can start with the lower right-hand pane because  
6 as you remember, that's minutes after the shooting, that white  
7 car there. That's Ms. Jean-Baptiste, his girlfriend. She  
8 testified at this trial. That's her picking him up right  
9 after the shooting wearing the dark shorts, the dark shirt,  
10 the dark baseball hat, the dark shoes. Remember, you also saw  
11 her leave her house to come pick him up. That's her with the  
12 crime scene in back of her right there.

13           What else do you have? He's coming out of -- the  
14 defendant is coming out of his house by the white Kia. That's  
15 all evidence that shows it is him as opposed to somebody else  
16 in these videos.

17           Most of all, you have the gas station footage from 15  
18 minutes after the shooting. Defendant is wearing the same  
19 clothes, the same dark shorts, the same Sox hat, the same gray  
20 shirt, the same dark shoes. You see his face clean as day.  
21 You notice the defendant doesn't look like he does now. He's  
22 got long --

23           MR. HYMAN: I'm going to object to that statement.  
24 It's not relevant.

25           THE COURT: Overruled.

1           MR. EICHENSEER: His appearance was different that  
2 morning. He had long -- he had a long ponytail. He had  
3 facial hair like a goatee. Of course, he was dressed in all  
4 black as you heard here are Saints colors. And if that  
5 weren't enough, remember, that was defendant with his phone  
6 right there in that photo. He was Snapchatting with his  
7 girlfriend before and after the shooting.

8           Remember, we saw evidence from his Snapchat account,  
9 ebirdwdst, in this trial. These are just two of the pings  
10 that his account had on that day, 3:18:14 and 3:18:59 right  
11 around the time of the shooting. Now, remember, these dots  
12 are not exact. There's about a 100-meter margin of error, so  
13 it can be anywhere within that big circle.

14           But notice where those circles interlap or overlap,  
15 and you see that they encompass the gangway where the  
16 defendant fired the shots and his house at that time. This is  
17 just more evidence that that's the defendant in those videos  
18 and that the defendant did the shooting.

19           This is again, also, Ms. Jean-Baptiste, she had a  
20 Snapchat account, Vicky0730. You see all there together with  
21 ebirdwdst at 3:22, this is just after the shooting, this is  
22 just Snapchat records of her picking him up. That's how it  
23 looks in Snapchat's records.

24           So 3:00 o'clock to 3:08, this is when the defendant  
25 pulls out in the white Kia, and he starts methodically

1 circling the blocks. He circles about three blocks. And it's  
2 hard to tell from this video evidence, but I'll walk you  
3 through it, but the blocks that he circles, he leaves his  
4 house here on Wood Street. Then he'll turn left. He's going  
5 to come down Honore, and he's going to go back east on 44th  
6 and then back up in front of his house.

7           Then he's going to go -- he's going to go left on  
8 43rd again and then circle the next block over. You can't see  
9 it on this map, but that's the block between Honore and  
10 Wolcott. Then he's going to go up Honore, and he's going to  
11 go over on 43rd. He's going to drive down Hermitage right  
12 past the area where he's going to shoot Agent Crump in a few  
13 minutes.

14           Now, that, the way he's driving there, that's not a  
15 coincidence. Remember, this is the northern boundary of  
16 Saints territory. The defendant is circling this to patrol  
17 the perimeter. And the defendant, of all people, has a reason  
18 to be on the lookout. You remember his brother Biscuit,  
19 another Saints chief, you heard that he was shot and killed  
20 just months before this at 43rd and Honore, right there.

21           Now, I want to talk for a moment, ladies and  
22 gentlemen, about Hector Ruiz. You probably remember him. He  
23 was the Latin Saint who testified at this trial, the guy with  
24 the face tattoos. Now, Mr. Ruiz, he's a drug dealer. He's  
25 shot people. He's been shot himself. He sold guns. He

1 admitted all that to you on the stand.

2 But we didn't call him as a witness to this crime.  
3 He wasn't there that day. He didn't see it happen. But we  
4 called him as a witness to give you an inside view of the  
5 Saints rules, territory, and factions. And the rules here are  
6 particularly important, the rules about having to stand post  
7 24/7, chasing and shooting on rivals, having ready access to a  
8 gun when you're on post.

9 Now, Mr. Pissetzky cross-examined Mr. Ruiz very  
10 aggressively, and he asked -- and he pointed out that the  
11 rules are not written. There's no gang constitution or gang  
12 code. Well, they don't have to be written because they're  
13 enforced by beatings. You heard Mr. Ruiz tell you that. He  
14 had been -- he had gotten these beatings himself. They're  
15 called violations. And that's why members follow the rules  
16 because if they don't, they get beaten.

17 Now, you should -- Mr. Ruiz is getting benefits from  
18 the government. You heard that. He's cooperating. He's been  
19 relocated. He's been paid. He's getting immigration  
20 benefits. And you can and you should consider what he tells  
21 you with caution and great care.

22 But as you do that, keep in mind two things. The  
23 first is that you remember when Mr. Pissetzky was  
24 cross-examining Mr. Ruiz, he accused him of just making this  
25 all up to help the government's case against the defendant.

1 You remember how Mr. Ruiz answered that question? He didn't  
2 know he'd be testifying against the defendant just until a few  
3 months ago when he walked into the grand jury. He provided  
4 all that information about the Saints to the government before  
5 he ever knew he was going to be in this courtroom today. He  
6 didn't make it up just to help the government's case against  
7 the defendant.

8 But more importantly, consider how what he explained  
9 to you about Saints rules and posting up and having to chase  
10 and shoot at rivals lines up with what you see in the video.  
11 Consider that.

12 So back to the video. I said again, it's hard to  
13 tell exactly where -- how he's circling the blocks, but this  
14 is him at 3:02 coming back on 44th Street, coming up past his  
15 house again where he is doubling back past his house. He's  
16 not lost. He's not running errands. He's not looking for  
17 parking. This is him being methodical.

18 And, of course, this is him driving right down  
19 Hermitage, right in front of the gangway where he's going to  
20 shoot Agent Crump in a few minutes. This is him patrolling  
21 his turf. At 3:06, you have him turning through the  
22 intersection where he'll shoot Agent Crump in a few minutes.  
23 And then he's going to turn south on to 44th Street -- or on  
24 to Wood Street from 44th. And as the ATF video technician  
25 Mr. Greene told you, he doesn't see the white Kia after that.

1           So at 3:06, the defendant pulls over and is just  
2 waiting at 44th and Wood. He's posted up, in his car, at his  
3 car, we just don't know, but he's there. And he's there at  
4 3:06. He's there at 3:07. He's there at 3:08 and at 3:09.  
5 How do you know? Well, remember, his girlfriend was  
6 Snapchatting him at that point.

7           And she asked him at 3:06, "You're at home," question  
8 mark? At 3:08 he says, "No, 44 Wood."

9           You remember, there was some suggestion by  
10 Mr. Pissetzky on cross-examination that the defendant was --  
11 you know, he lives right here. This is 44th and Wood. That's  
12 just maybe a reference to his house. No, that's different.  
13 44 Wood means he's out on the street. He's out on post.  
14 That's why he clarified to Ms. Jean-Baptiste that he's not at  
15 home, he's at 44 Wood. And 44 Wood is important because of  
16 what happened next.

17           This is when the scout team is coming to the area.  
18 That's Detective Schoenecker right there in the circled car.  
19 This is him going up and down Hermitage south of 44th to make  
20 sure that the area around those cars is clear.

21           But what's really important is that the scout team,  
22 after they drive south on Hermitage in that bottom pane,  
23 they're going to hang a left, and they're going to drive up  
24 Wood past 44th and Wood right where the defendant is still  
25 after he called. He hasn't gone anywhere. He's not doing

1 anything. He's still at 44th and Wood.

2 And how do you know? At 3:13 there's his Snapchat  
3 ping. Again, not exact, but it shows him right near that  
4 intersection.

5 And about 3:14 is when the scout team drove through  
6 that intersection. There's a still of them right there having  
7 just crossed 44th and driving up Wood. There's the  
8 defendant's house on your right. The defendant, though, was  
9 not in his house. He's still at 44th and Wood south of there.

10 And how do you know? Because after he -- after  
11 seeing that scout team, he runs. That yellow circle is him  
12 running across 44th. You're going to see him keep running all  
13 the way up Wood to his house. You see him briefly look behind  
14 him as he's running, too. Again, this is about three minutes  
15 before the shooting.

16 And before we go into more details, just stop and  
17 think for a second. The defendant is running up the block at  
18 3:15 in the morning. Why is that? He's not exercising. He  
19 just saw a bunch of strange guys in that brown Impala, the  
20 scout team, driving slowly. Remember, Detective Schoenecker  
21 said they were driving 15 miles an hour.

22 There's not a lot of traffic on the streets at that  
23 point. You see that. Well, the defendant saw the scout team  
24 not only drive past his house but then take a right and start  
25 to circle the block. He's running because he thinks the

1 situation is urgent. That's why he's running. He thinks  
2 something is up, something is fishy. These guys look like  
3 they're up to trouble.

4 Remember, the defendant, his own brother was killed  
5 by rivals a couple months ago. He doesn't want rivals to get  
6 the jump on him. He doesn't want that to happen again. So  
7 when he sees possible invaders, he runs to his house to get a  
8 gun.

9 Remember, Hector Ruiz also explained to you that when  
10 Saint members are outside the neighborhood, they've got to be  
11 on post. It just means they've got to be on the lookout, and  
12 when they see rivals, they've got to chase and shoot them out.  
13 But when you're on post by yourself and you're standing out  
14 there alone, you don't have a gun on you. It's too risky.  
15 You heard that. You get arrested, pulled over, it's too  
16 dangerous to have a gun on you, so you have to have it nearby.

17 And what else did Mr. Ruiz tell you? Well, that  
18 these guns, the guns that are nearby, are called Nation guns.  
19 They're communal guns amongst the Saints, and the chiefs are  
20 in charge of those guns. The defendant was a chief of the  
21 Wood block. So when the defendant runs here, that's why he's  
22 running, to his house to get a gun because he's not going to  
23 confront these rivals without protection.

24 So let's take a broader view. This is a multi-cam  
25 pane. Again, that is the scout team on the right-hand corner.

1 They just drove past defendant's house. Now, just for  
2 orientation, the defendant has not run across 44th yet. He's  
3 still someplace south of 44th in this area on Wood. And you  
4 see the scout team, they're turning right, Detective  
5 Schoenecker, Detective Daquilante. Remember, they're driving  
6 very slow.

7           The next spot that you're going to see the scout team  
8 is in the lower left-hand pane driving down Hermitage. And  
9 you're not going to see them for a few minutes because  
10 Defendant Schoenecker is driving really slow. So imagine if  
11 you're the defendant, you just saw this car drive past you  
12 slowly, suspiciously. Now it's turning on 43rd Street, and  
13 then it drives down Hermitage.

14           And there's the scout team. And as they pull up to  
15 that intersection in the upper right-hand corner, this  
16 intersection right here where Agent Crump is shot, that is  
17 when the defendant decides to run. He saw or heard or both  
18 the scout team. What originally looked pretty suspicious now  
19 looks really suspicious. These guys had just circled his  
20 block completely, and that's what caused him to run into his  
21 house.

22           So that's an important fact because at 3:15:48,  
23 that's when he goes inside his house. That's the lower  
24 right-hand pane. There's the scout team. They have just  
25 crossed 44th continuing south on Hermitage. So in the

1 defendant's head, when he runs inside, the last place that he  
2 saw these rivals was on Hermitage.

3 MR. PISSETZKY: Objection, your Honor. There's no  
4 testimony he saw his -- anybody, anyone. Counsel is  
5 misstating --

6 THE COURT: Overruled. The jury has heard the facts.  
7 They'll make the decisions as to what facts were proved.

8 MR. EICHENSEER: And he's in his house for just a few  
9 moments, about 30, 34 seconds if you count them. So at  
10 3:16:22, again, two minutes now before the shooting, this is  
11 the defendant still running out of his house. He was there  
12 for a little bit. He keeps running north.

13 And his ultimate destination, as you know, is this  
14 gangway right here. But again, think about that. He ran from  
15 all the way down here, across 44th Street, up Wood and then  
16 kept going to this gangway. What was so urgent that he needed  
17 to stop at his house for 30 seconds? It wasn't his cell  
18 phone. You saw he had that. It was a gun. You know that  
19 from Mr. Ruiz's testimony but, most of all, you know that from  
20 what happens next.

21 It's 3:17. This is now 70 seconds before the  
22 shooting. This is the alley in back of the defendant's house  
23 looking south. Here comes the defendant. Notice, he looks  
24 both ways before he crosses the alley. He's on patrol. He  
25 wants to make sure that those possible rivals aren't in the

1 gangway or the alley, and he steps down as he goes into that  
2 gangway.

3           Here are some stills of him crossing. Again, he's  
4 tentative. He doesn't want to cross right away. He goes like  
5 this. He wants to make sure the coast is clear because he  
6 thinks there's a possible threat around, and he thinks that  
7 that threat is on Hermitage. That's why he's walking over  
8 there. He wants to monitor the situation from someplace safe,  
9 and he knows that the gangway he's about to go into is a safe  
10 spot.

11           Here is the inside of that gangway. It's not a  
12 coincidence he went in there. "Saints 4500," you see that on  
13 the left-hand side. Remember Mr. Ruiz, he said that that  
14 upsidedown "A," that is a sign of disrespect to the Ambrose,  
15 another one of the Saints rivals. And there's a stickman and  
16 baby blue, the Saints symbol and Saint colors. And he's  
17 holding the upsidedown pitchfork which is a sign of disrespect  
18 to the SDs, the Satan Disciples, another rival.

19           Where have you seen that stickman before? On the  
20 defendant's forearm in that gas station video. There it is  
21 right there. It's not an accident or coincidence that the  
22 defendant went in this gangway. It was on purpose. This is a  
23 safe spot where he can look out. It's literally a gang way.

24           Here is the gangway from the front. Now, it's an  
25 ideal lookout for several reasons here. You notice how the

1 neighborhood is, the two houses on either side, they come  
2 almost right up to the sidewalk. In other words, they give  
3 you protection from both sides almost to the sidewalk. And  
4 there are some steps in front, too, offering more protection  
5 if you're inside the gangway.

6 But there's another reason, a more important reason  
7 why this is an ideal Saints lookout. You notice the 4336, the  
8 building to the south, this one right here, it doesn't come  
9 all the way to the sidewalk. There's a little stub there with  
10 a fence. And that's a little perch. From that perch, you can  
11 see right down the sidewalk. You've got a line of sight all  
12 the way to the intersection. And that's where the defendant  
13 was standing in that approximate location when he fired those  
14 five shots.

15 Look at that. He's wearing all black. No wonder  
16 nobody can see him. He's silhouetted against the dark back of  
17 the gangway and dark clothing. It's an ideal spot to shoot at  
18 rivals, and that's why the defendant chose this gangway.

19 Here is the view looking south. Remember this, Agent  
20 Jacobsen, he took this photo. He's not even on the sidewalk.  
21 He's standing on top of the steps, you just saw earlier, a  
22 clear line of sight to the intersection where Kevin Crump was.

23 And that's the view defendant had when he shot. Of  
24 course, it was dark then, but he was in the shadows. The  
25 three agents were in the streetlight. They were visible.

1 This is a zoom-in of that view. The right circle, that's  
2 about where the defendant shot Agent Crump. The middle circle  
3 is the tree that the defendant shot with one of his stray  
4 bullets, and the circle on the left is about where Spratte and  
5 Winter were when the shooting started. Again, that was an  
6 ideal spot to shoot at the agents.

7 Now, how come -- this is a still of him right before  
8 he steps down into that gangway. And how can you be sure that  
9 the gangway he was entering on this footage was that gangway  
10 we just looked at? Well, there's lots of reasons.

11 You heard from Agent Jacobsen. He went out there  
12 after the shooting. He walked around. He watched the video.  
13 He determined that this gangway right here was the gangway  
14 that defendant went into.

15 And there's lots of reasons why else you know that,  
16 too, because if you look in the footage, there's some garbage  
17 cans and utility pole to the north of the defendant right  
18 about here. There are those garbage cans. There is the  
19 utility pole. And there, it's kind of hard to see in this  
20 photo, but that's the step down that you see the defendant  
21 taking as he enters the gangway.

22 So go back to the video again. 70 seconds before the  
23 shooting, 3:17, you're going to see him cross again. Notice  
24 how he steps down.

25 (Said video recording played in open court.)

1           MR. EICHENSEER: Now he's going to walk to the front  
2 of that gangway. He's got the gun now. And you're about to  
3 see the second ATF team drive right past him in about 30  
4 seconds.

5           And notice what you don't see. You don't see anybody  
6 else coming in and out of that gangway, coming in or out of  
7 the alley in front or back. These cameras are on both sides  
8 of the building, front and back, and they're both trained  
9 south. You watched the footage yourself. It's almost a half  
10 hour long. There's not a single person in that alley, in that  
11 gangway, except for the defendant.

12           There goes Officer O'Neill and Agent Crump. Officer  
13 Winter and Spratte are in the car. And here is a still from  
14 that. This is 3:17:34, less than a minute before the  
15 shooting. Defendant is in the gangway right there. And he  
16 sees a second car pass by.

17           Again, it was suspicious enough when that first scout  
18 team circles the block. Here come four more strange guys in  
19 another unmarked car in plain clothes. The defendant  
20 definitely thinks something is going down now. And his  
21 suspicions are confirmed.

22           At 3:18:05, this is a few seconds before the  
23 shooting, Officer O'Neill, he pulls that car to the right here  
24 and then the three agents get out: Spratte, Winter, and  
25 Crump.

1           3:18:05, that's O'Neill driving away. 3:18:06, it's  
2 kind of hard to see, but there's three figures there. That is  
3 Crump, O'Neill -- sorry, Crump, Spratte, and Winter crossing  
4 the street.

5           Remember, as they got out, they split in different  
6 sides. Crump goes to the west side of the sidewalk. Spratte  
7 and Winter go to the east side of the sidewalk. They put on  
8 their hooded sweatshirts. They have their hoods up, hands in  
9 their pockets. They're walking away from the defendant.

10           Again, think of how this looks to the defendant. He  
11 just saw rivals circling his block, possible rivals, and he  
12 sees a second car drop three guys off and the car pulls away.  
13 The guys have their hoods up. They appear to be in some kind  
14 of formation. It looks to him like these are rivals that are  
15 now trespassing on Saints territory.

16           It's his job to chase and shoot them out he thinks,  
17 and so this is when he decides to act. This is when he  
18 decides to ambush these guys by surprise from behind. You  
19 heard and saw the shooting.

20           (Said video recording played in open court.)

21           MR. EICHENSEER: So you notice that when the shooting  
22 began, Agent Crump and Spratte turned around, looked behind  
23 them because they sensed that the gunfire was coming from  
24 behind them, which it was. Defendant was behind them.

25           And then you heard some yelling. You heard Spratte

1 yell, "Shots fired. Shots fired." Then you heard Winter who  
2 is next to him on the east side of the street go, "Where is it  
3 at? Where is he at?"

4 And then you heard Officer Spratte reply, "He's over  
5 at the," and then the audio cut off. But Officer Spratte  
6 testified at this trial, he explained what he was saying. He  
7 was yelling, "He's over there," and he was gesturing toward  
8 the west side of Hermitage Avenue, he said, about halfway up  
9 the block where he saw two muzzle flashes.

10 Now, the audio cuts off right there for a reason.  
11 This is ShotSpotter recorded this. Defense tried to make a  
12 big deal out of the fact that the audio cuts off, suggests  
13 that there is some kind of conspiracy by ShotSpotter to keep  
14 this evidence from you. Not true. ShotSpotter told you they  
15 only record the two seconds before the first shot and the four  
16 seconds after the last shot. That's by policy. That's why  
17 you only heard that snippet.

18 And speaking of ShotSpotter, there was a ShotSpotter  
19 sensor right at this intersection. That's why you were able  
20 to hear all of those shots. And it didn't just capture the  
21 audio from the shots. You see it captured the exact discharge  
22 time of each shot, and it also captured their location.

23 This is very important information. You see the  
24 first five shots are the defendant's, from 3:18:10 to 3:18:12.  
25 He squeezed off five shots in two seconds. It's an ambush.

1 And then the last two shots, 6 and 7, those are Officer  
2 Spratte's return fire, 3:18:14, '15. Notice how quickly  
3 Officer Spratte returned fire. He heard gunshots behind him,  
4 he turned around, and within seconds he saw the muzzle flashes  
5 and returned two shots.

6 Well, how do you know that the first five are the  
7 defendant's and the last two are Spratte's? Well, again, the  
8 shots fired map, it tracks the location of each shot. Again,  
9 this is not -- this map was created by software that senses  
10 acoustically where those sounds are coming from and then plots  
11 hyperbolic lines, charts where those lines intersect and gives  
12 a lat/long coordinate. This is a machine-generated document.

13 And look how accurate it is. Shots 6 and 7, they  
14 located them right about where Officer Spratte was. Those  
15 first five shots, No. 4 is hidden because they're piled on top  
16 of each other, but those first five shots are right by the  
17 defendant's gangway.

18 Now, remember, Paul Greene, the ShotSpotter expert,  
19 he explained that these aren't pinpoint accurate locations.  
20 There is a margin of error. But in his experience, that  
21 margin of error is about 10 to 12 feet. And these dots on  
22 this map are on -- some of them are on 4336 South Hermitage.  
23 That's the block -- that's the house right next to the  
24 gangway.

25 This plot right here, this map, just demonstrates

1 ShotSpotter's accuracy because we know Officer Spratte was  
2 right here when he returned fire. We know the defendant was  
3 right there. ShotSpotter is just confirming this.

4 But how else do you know that those five shots up  
5 there are the defendant's? Well, most importantly, you have  
6 the five fresh shell casings that he left behind because he  
7 was in too much of a hurry to pick them up.

8 What else do we know about those shell casings? By  
9 the way, the shell casings aren't at the mouth of the gangway.  
10 They're maybe, I don't know, five to ten feet in from the  
11 gangway, but you heard why that is. You heard ATF firearm  
12 expert, the ATF firearm expert, Esposito, he explained that  
13 semiautomatic handguns, most of them eject to the right-hand  
14 side, and they eject eight to ten feet typically.

15 So when the defendant is standing either on the steps  
16 or on top of the steps holding the gun firing south, the  
17 shells eject into the gangway. That's why they landed right  
18 there.

19 We know some more things about these shells, too.  
20 They were fresh and shiny. And that's not surprising because  
21 the defendant had just fired them several hours before Chicago  
22 police found these casings.

23 Officer Presnell, the evidence technician, he  
24 explained that if shell casings have been there for a while,  
25 they get dull and weathered, covered with dirt. These

1 weren't. These were fresh and shiny because they had just  
2 come out of the defendant's gun.

3           We know some more about these shell casings, too.  
4 They're all fired from the same gun, a .9 millimeter. And you  
5 heard that from the ATF firearms expert, Esposito. He  
6 compared the markings on all the casings, looked at them under  
7 side-by-side microscope, applied his expertise. He came to  
8 the conclusion that these are all from the same gun.

9           Again, that's not surprising because these are the  
10 defendant's shell casings. You've heard suggestion during  
11 cross-examination and argument from the defendant that Chicago  
12 police somehow planted these casings here or the fifth one was  
13 found later. No, they're all from the same gun. The markings  
14 on the casings don't lie. So those are just the casings  
15 themselves. That's what's left behind when the defendant  
16 fires those five shots.

17           What about the bullets that he fires? Well, we know  
18 where two of them went. One of them hit the north side of  
19 this tree right here a few houses down from where he shot.  
20 There's the picture of the bullet in the tree there. Of  
21 course, the second one is the one that tore through Agent  
22 Crump's head. Again, we know that because that bullet had  
23 Agent Crump's DNA. The only way it gets his DNA is by tearing  
24 through his head. And after it came out his eyes, that  
25 bullet -- between his eyes, that bullet had traveled, and it

1 came to rest just off the sidewalk by evidence marker 3 right  
2 there.

3 And what do you know about that bullet? Again, fired  
4 from the exact same gun as the bullet in the tree.  
5 Mr. Esposito told you that, too. He compared the rifle  
6 markings on the bullets, and he concluded that those are fired  
7 from the same gun.

8 And he told you more than that, too. Again, without  
9 having the actual gun, he can't tell you what gun these  
10 bullets came from, but he can tell you that they were fired  
11 from one of 49 different types of guns. 42 of those were .9  
12 millimeters just like the casings in the gangway. Again,  
13 that's not a coincidence. That's because the defendant fired  
14 those two bullets from those five shell casings. It's an  
15 example of DNA and ballistics evidence coming together.

16 So I know we've talked a lot about where the casings  
17 were, where the bullets were. Let's look at it all in one  
18 place. The map on your right, that's the evidence plat that  
19 Officer Presnell prepared after visiting the scene. Remember,  
20 he's the CPD evidence technician.

21 He goes out there, he measures the distances between  
22 the streets. You see that. He charts where the blood is,  
23 where the trees are, where the cars are, where the shell  
24 casings are found, where the bullet that went through Agent  
25 Crump is found. He puts it all in this map and draws it to

1 scale.

2           So let's see where all this stuff lines up on the  
3 map. There's the shell casings up there in the gangway where  
4 the defendant was. There's the bullet in the tree. That's  
5 about where Agent Crump was shot, and that is where the bullet  
6 landed. Again, all consistent with defendant firing down the  
7 sidewalk from that perch all in his line of sight. The  
8 evidence in this case literally lines up.

9           So I want to talk a little more about the sidewalk  
10 that the defendant fired at because there was a camera trained  
11 on that sidewalk. We've already talked about this, right  
12 down -- it was on 4324, right down the sidewalk. But you  
13 don't see the defendant shooting on that camera. You don't  
14 see him anywhere in the footage, but there's a reason for that  
15 because there's an awning that's right in front of the  
16 gangway. That creates a blind spot in the footage.

17           There's a close-up of that blind spot. You see the  
18 red arrow there? Right below it is a cement walkway. If you  
19 extend that walkway, it becomes the gangway that the defendant  
20 is in. That entire area and some of the sidewalk is obscured  
21 by that awning. It created a blind spot. And that's where  
22 the defendant was standing when he shot Agent Crump.

23           You've got a great illustration of that from Agent  
24 Jacobsen. He went out there with a video camera. This is  
25 what he shot. The camera is running. The security cameras

1 are right there on the left on the red house right below the  
2 windows. And as he walks over, he's not even in the gangway,  
3 he's just on the top of the steps, but he's in that blind  
4 spot. The camera can't see him. And that's the reason that  
5 you don't see the defendant firing the gun.

6 So that's what we know. That's standing in the  
7 gangway looking toward the cameras. And you already saw the  
8 southern feed from there: A clear line of fire to the  
9 intersection, a clear line of fire to that tree.

10 So I'm going to talk a little bit more about that  
11 sidewalk because remember, Officer Spratte was cross-examined  
12 pretty heavily on the fact that he saw a person in a white  
13 T-shirt somewhere out there during the shooting. And he  
14 testified that when he turned around, he saw muzzle flashes on  
15 the west sidewalk halfway up the block on 4300.

16 He didn't see anybody by those muzzle flashes. He  
17 testified to that. He couldn't see anybody behind them but at  
18 some point, he saw a person in a white T-shirt. He's not  
19 exactly sure when. But you know what? That makes sense for  
20 several reasons, ladies and gentlemen. The first -- again, we  
21 have this camera footage of that sidewalk. You don't see  
22 anybody in a white T-shirt on that sidewalk the whole -- the  
23 whole footage.

24 It makes sense, when Officer Spratte tells you the  
25 person in the white T-shirt, he wasn't the person that Officer

1 Spratte was shooting at. That person wasn't by the muzzle  
2 flashes. What makes sense when you look at this video? That  
3 lines up.

4 But what also makes sense is why Agent Crump doesn't  
5 remember -- Agent -- Officer Spratte, rather, doesn't remember  
6 exactly when he saw that person because consider the few  
7 seconds that Officer Spratte had gone through. He's out there  
8 with his partners 3:00 in the morning when he takes fire from  
9 behind, five shots. He doesn't know where the shots are  
10 coming from.

11 In a split second, he turns around and he fires his  
12 service revolver, his service weapon for the first time in his  
13 career when he's on duty. This is his first time. Not only  
14 that, he doesn't know who's shooting at them. He just saw  
15 muzzle flashes. The assailant is still out there. So this is  
16 all happening in seconds. He starts running up the street to  
17 find that assailant with Winter, and then he realizes his  
18 partner Agent Crump isn't with him, and he realizes that he's  
19 lying over on the curb shot through the face.

20 And he goes over, he holds his -- he holds his  
21 partner, bleeding from the face, hoists him into the car. And  
22 he told you, then he sat down. He was in shock after that,  
23 after Agent Crump went to the hospital. Officer Spratte went  
24 to the hospital himself. And he came back to the scene when  
25 it was light out, hadn't slept the whole night.

1           And when Officer Spratte, when he signed up to be a  
2 police officer, there's -- he knew that there was risk and  
3 danger in the job, but few are ever going to have that  
4 sequence of a few seconds or experience those few seconds like  
5 Officer Spratte did.

6           So back to the video. 3:18:15, that was Officer  
7 Spratte's last shot. The defendant's last shot was at  
8 3:18:12. So what happens? This is an important part, so I'm  
9 going to go slow here. What happens ten seconds later? Well,  
10 here's some context.

11           3:18:25, ten seconds later, Agent Crump is lying on  
12 the curb by that yellow street sign. Officer O'Neill is  
13 backing up into the intersection to see what happened because  
14 he heard the shots. What is the defendant doing? He's  
15 running fast out of that gangway. This is ten seconds after  
16 Officer Spratte's last shot, 13 seconds after the defendant's  
17 last shot.

18           Remember, the gangway is long. It takes him a few  
19 seconds to get to the end of the gangway. So just seconds  
20 after he fires the last shot, he is already booking it out of  
21 there. There is a reason for that.

22           So again, here is some context. Here's a multi-pane  
23 view. 3:18:28, Agent Crump is on the ground right there.  
24 Remember, Winter and Spratte, at first this is when they ran  
25 north with their guns drawn toward the muzzle flashes. They

1 were going to go find this assailant, neutralize the threat,  
2 but they stopped. They got about this far before they  
3 realized that Crump wasn't with them. They stop there, and  
4 they ran back to attend to their wounded partner. And that  
5 was about 3:18:20.

6 Here's the clip of Winter and Spratte running north  
7 after they turned. There they are right there, and they stop.  
8 And this is about 3:18:20. It's just seconds later that the  
9 defendant chooses to run.

10 Think about that. He shot five rounds himself, but  
11 he got shot back at. He heard two rounds fired back at him.  
12 Then he sees two guys running up the street. He's  
13 outnumbered. He doesn't have time to pick up those shell  
14 casings. He's got to get out of there, and that's when he  
15 decides to run. The time sequence here lines up exactly.

16 Here is the -- and keep in mind what he's doing when  
17 he's running. This is the slow motion video of him running.  
18 Notice his right hand. It's not moving as he runs. He's  
19 running fast. This is slow motion. His left hand is pumping  
20 away. The right hand stays right here at his side.

21 Here are some stills from that, right hand at his  
22 side, side, side, side, side. You can see he's in full sprint  
23 in that bottom center frame right there, but the right hand is  
24 still down there. Now, the footage is too grainy to see  
25 exactly what he's doing. Ladies and gentlemen, he's got the

1 gun somewhere on his right side. You can't --

2 MR. HYMAN: Judge, I'm going to object to that.

3 MR. EICHENSEER: You can't tell --

4 MR. HYMAN: Your Honor, I must object to that  
5 inference. That cannot be -- I understand it's closing  
6 argument, but I object to that.

7 THE COURT: Overruled.

8 MR. EICHENSEER: He's got dark shorts on. You just  
9 can't see what he's doing exactly. It's unclear, but the hand  
10 stays there the whole time.

11 Now, what is clear, though, is what the defendant  
12 left behind in that gangway: The five shell casings from the  
13 five shots that he just fired, the five shots, shots fired,  
14 independently detected right at that location, five shots  
15 right by where Officer Spratte saw the muzzle flashes.

16 None of that's a coincidence. None of that's an  
17 accident, ladies and gentlemen. He's booking out of this  
18 gangway ten seconds after the shooting because he's the  
19 shooter. He doesn't want to get shot himself. He doesn't  
20 have time to pick up his casings. He thinks his own life is  
21 in jeopardy at this point, so he takes off.

22 Now, you don't check your common sense at the door  
23 when you become a juror, and you can use your common sense  
24 here. And please do because ask yourself, does it make sense  
25 that the defendant just happened to be in this gangway at 3:18

1 in the morning the exact time of the shooting, where the five  
2 shell casings were, where ShotSpotter detected them just at  
3 the wrong place at the wrong time? Of course not. That  
4 doesn't make any sense. There's nobody else in that alley,  
5 nobody else in that gangway. It's the defendant. Common  
6 sense tells you that.

7           So where does he go after he comes out -- after he  
8 runs through the alley? He keeps running all the way back to  
9 his house. And this is when at 3:21, he texts his girlfriend,  
10 "Where are you at?" He's ready to leave. He doesn't want to  
11 stick around. He's not sure if anybody saw him, what the deal  
12 is, but he knows better than to stick around the neighborhood.

13           By the way, you're Snapchatting with Ms. Jean-  
14 Baptiste, his girlfriend at the time, and at 3:18:55, that's  
15 her, Vicky0730, she texts him, "Where you at?" And the  
16 defendant doesn't respond because he's busy shooting Agent  
17 Crump and then making his escape. That's why he doesn't  
18 respond.

19           It's not until 3:21:24 when he's back at his house  
20 that he says, "Where you at?" Now he's ready to go. At  
21 3:21:40, a couple minutes after the shooting, this is  
22 Ms. Jean-Baptiste getting into her car, swinging around to go  
23 pick up the defendant at his house. She texted him at 3:21,  
24 "By the corner of 44th and Wood." Well, she wasn't there yet.  
25 That wasn't true. She hadn't left.

1           Meanwhile, 3:22:40, a minute later, the defendant  
2 steps out of his house. He wipes the sweat off his face.  
3 It's May 4th, still early spring, but the defendant's  
4 adrenaline is pumping. It's because he just squeezed off five  
5 rounds at what he thought were rivals and then booked it out  
6 of there because he thought people were coming for him. No  
7 wonder he's sweating. No wonder his adrenaline is pumping.

8           And then at 3:22 in response to the, "Where you at"  
9 text, finally, three minutes later, defendant says, "My crib."  
10 Again, he's making clear, he's not at 44 Wood anymore. He's  
11 not posted up by that intersection. He's now back at his  
12 house, "back at my crib."

13           And then he disappears from view for about a minute  
14 and a half. You can watch the footage yourself. At 3:23:21,  
15 he walks north up to this direction and disappears by a  
16 gangway. Remember who lives up here? His brother who is also  
17 a Saint chief. You can't see what the defendant is doing in  
18 that minute and a half. We just don't know. The footage  
19 doesn't tell you.

20           Ladies and gentlemen, you've heard from the defense  
21 several times that there's no gun recovered in this case.  
22 This minute and a half right here, it's just one chance of  
23 many that the defendant had to ditch the gun between May 4th  
24 when he shot Agent Crump and May 7th when he's actually taken  
25 into custody. He's got all of the rest of May 4th, all of May

1 5th, all of May 6th. This is just one chance of many that he  
2 had to ditch that gun.

3 And you heard the defendant is no stranger to  
4 ditching evidence. You heard that he deals drugs, that he  
5 ditches his phones regularly. He changes phones so that he  
6 can avoid detection by the police. And he took all those  
7 other steps to avoid getting caught in this case. He changed  
8 his appearance. He switched cars. He ditched his cell phone  
9 eventually. It makes sense that the defendant would also  
10 ditch the gun.

11 So at 3:23:50, his girlfriend finally pulls in. This  
12 is Ms. Jean-Baptiste. She texted the defendant, "Here." He  
13 doesn't come out right away. Again, he's up by that gangway.  
14 He comes out about a minute later, walks down the gangway.  
15 And again, ask yourself what's not happening this whole time?  
16 Nobody else in that alley going into that gangway. No one  
17 else coming or going from the front, no one else coming or  
18 going from the back. This is him coming out of the gangway by  
19 his brother's house.

20 (Said video recording played in open court.)

21 Remember, this is where he gets into the passenger  
22 seat. As he gets in, this is where he's still sweating. This  
23 is where he leans back, and this is where he says, "I feel  
24 good, fuck that flake" just minutes after the shooting,  
25 confirmation from the defendant's own mouth that he was the

1 shooter.

2           What else could have made the defendant feel good at  
3 3:18 in the morning having just ran across the alley? He  
4 thought he just did his job as a Saint. He thought he  
5 protected Saints territory. He chased and shot at rivals,  
6 maybe even got some revenge for his brother's killing. He  
7 thought he did his job. He felt good.

8           So I want to talk a little bit more about  
9 Ms. Jean-Baptiste. Remember, she's the girlfriend who picks  
10 him up. And the real reason that she matters in this case is  
11 because of what the defendant said to her in that car right  
12 there, leaned back, sweating, "I feel good. Fuck that flake."

13           And you heard Ms. Jean-Baptiste. She testified under  
14 oath in the grand jury two months after the shooting. Her  
15 memory was still fresh. And this is what she testified to  
16 under oath. You heard, she was asked every which way, "Is  
17 this your testimony? Is this true? Is this accurate?"

18           She had her lawyer with her. She had representation.  
19 And she testified to this statement under oath because that's  
20 what the defendant said. You can consider that testimony  
21 under oath just like she was testifying from the witness  
22 stand, and you should because that's what he said.

23           Now, during the trial, you saw her get up on the  
24 stand and try to walk back that statement, try to twist and  
25 distort what he really said. And there's a reason for that,

1 ladies and gentlemen. Because she's trying to cover for the  
2 defendant just like she did on the afternoon of the shooting.  
3 Remember, Chicago police interviewed her, and they asked her,  
4 "Where did you go after you heard gunshots?" She didn't  
5 mention that she picked up the defendant, not at all. She  
6 just left it out because she was trying to cover for him.

7           So what's changed since her grand jury testimony?  
8 Well, you heard. She's met with the defendant's lawyers. Now  
9 she realizes just how devastating that that phrase is for the  
10 defendant. That's why she walked out of the meeting with us.  
11 Now she realizes what she said, what she swore under oath was  
12 really bad for the defendant, so she's trying to walk it back.

13           And so what you saw from the witness stand from her  
14 during this trial, that was an act. That was a performance.  
15 You saw her demeanor on the stand. You saw that she had  
16 canned laughter and smiles and could answer every single  
17 question that Mr. Pissetzky posed to her, but when we asked  
18 her questions on redirect, she couldn't remember anything. "I  
19 can't remember. I can't remember. I can't remember."

20           Ladies and gentlemen, it's your job to decide who to  
21 believe and who not to believe, who's credible and who's not  
22 credible. Ladies and gentlemen, don't fall for the act. She  
23 testified in the grand jury that he said, "Fuck that flake"  
24 because that's what he said.

25           And she knew exactly what he meant because remember,

1 an hour after the shooting, she texts her sister-in-law that,  
2 "They just shot some flakes by the corner of 44th and  
3 Hermitage." And she knows that because the defendant told her  
4 this. Now she realizes that is bad for him, and now she's  
5 trying to walk it back.

6 THE COURT: Counsel, you've been speaking for  
7 approximately one hour.

8 MR. EICHENSEER: Thank you, your Honor.

9 So ladies and gentlemen, we've gone frame by frame.  
10 We've chopped up those two minutes into little pieces. So now  
11 just watch those two and a half minutes straight through. It  
12 starts with the defendant running out of the house with the  
13 gun.

14 (Said video recording played in open court.)

15 The next place you can see him is crossing through  
16 the alley.

17 So again, the next car we're going to see is going to  
18 be Agent Crump with the rest of the team.

19 That's the footage, ladies and gentlemen. Those are  
20 the two and a half minutes book-ending the shooting here.  
21 Just focus on what the defendant did and said in the video, in  
22 the footage that you just saw. 3:00 o'clock, 3:14, patrolling  
23 Saints territory. Then he stops at 44th and Wood. 3:15, sees  
24 that ATF team, that first team circling the block driving past  
25 that intersection prompting him at 3:16 to run into his house,

1 grab the gun, run back out moments later.

2 3:17, he walks in that gangway with the Saints  
3 graffiti. A few seconds later, he sees the second ATF team  
4 drive past him. 3:18, he fires five shots from that gangway.  
5 One of those hits Agent Crump. A few seconds later, he runs  
6 back out of that gangway holding his side like this. And  
7 3:25, "I feel good. Fuck that flake."

8 Ladies and gentlemen, if this were all the evidence  
9 that you saw and heard at this trial, it would show you beyond  
10 a reasonable doubt that the defendant was the shooter, but  
11 there was more. There's all the things that the defendant did  
12 afterwards, not to mention leave the neighborhood.

13 What did he do? He downloaded that police scanner at  
14 3:33. And why was that? Well, he wasn't sure if the police  
15 were on to him. He wanted to see. He heard a cop was shot.  
16 That was it. So far, so good. He then just to be safe, he  
17 went to that second gas station and he bought a white T-shirt  
18 and puts it on over his dark T-shirt. He wants to do that to  
19 change his appearance. If anybody got a description of the  
20 shooter, he didn't want to look like that person.

21 There's no reason for him to be buying a white  
22 T-shirt on Garfield Boulevard at 4:00 o'clock in the morning  
23 other than to change his appearance. He came back to the  
24 house and avoided the house altogether in the white T-shirt.  
25 He kind of skulked around the scene to get the lay of the

1 land.

2 Now, remember, Ms. Jean-Baptiste, I want to go back  
3 to her again. Lots of things she told you at this trial were  
4 corroborated by other evidence. She couldn't walk those back.  
5 The texts, the video of her picking him up, the video at the  
6 gas station, all that stuff corroborates her testimony.

7 And she also said, remember, she's the one who said,  
8 "We went to the second gas station." And with the money from  
9 the blunts and the water from the first gas station, he bought  
10 that white T-shirt and put it on over his T-shirt, his dark  
11 T-shirt. And we know that happened because at 4:40, you see  
12 their two Snapchat accounts together by the corner of 43rd and  
13 Honore which is where she said she dropped him off.

14 Again, she doesn't drop him off by his house. She  
15 drops him off a block away. How do you know that? Because  
16 you see the defendant in the white T-shirt on the video here.  
17 This is 4:40, an hour after the shooting. You've about to see  
18 the defendant. Where does he come out of? He comes out of  
19 the gangway over here on Honore. He's very cautious about  
20 coming back to the scene.

21 He's wearing a white T-shirt. He's still got the  
22 dark shorts on, but he's ditched the white T-shirt -- or  
23 ditched the dark T-shirt. He's also left the black hat  
24 behind. That's in Ms. Jean-Baptiste's car. He doesn't want  
25 to look too much like the shooter that he was.

1           And he doesn't go to his house. He hangs out up here  
2 by his brother's house trying to see what's happening,  
3 avoiding the scene. And then at 4:43, he walks back to the  
4 opposite side of the sidewalk, and he goes and picks up that  
5 white Kia to take his friend to the airport. He wants to  
6 stick with the program. He's not sure that anybody is on to  
7 him yet.

8           And there we have him later that morning in the white  
9 Kia. This is on the other side of the city. Remember, he  
10 went to hang out at his friend's, his cousin's house on the  
11 far north side of the city. He hid that Kia in his cousin's  
12 garage. Remember, then he changed cars. He came back to the  
13 neighborhood to pick up his baby's mother, Destiny Rodriguez.  
14 That white Kia is hers, but he comes back to the neighborhood  
15 in a completely different car, one she's never seen before to  
16 pick her up. And he does it by going in the alley. He's  
17 trying to keep a low profile. He wants to make sure there's  
18 no heat on him.

19           But most importantly, ladies and gentlemen, this is a  
20 powerful episode of the trial. Remember, Destiny Rodriguez,  
21 his baby's mother, and the defendant, they're at the cousin's  
22 house. They're hanging out. And that's when Ms. Rodriguez  
23 gets that wanted poster of the defendant. Remember, she's got  
24 their child, the one-year-old child, with her.

25           And she broke down on the stand when she explained

1 how she felt. It still triggers her to this day a year later  
2 because at that moment, the life that she thought she had with  
3 the defendant and her son was gone.

4 And what did defendant say at that emotional moment?  
5 When he realized, he was standing right next to her, what did  
6 he say? He didn't say, "It's not me. It's all a mistake.  
7 This will blow over. They got the wrong guy."

8 No. He said, "I'm sorry" because he knew what he  
9 did. And, of course, at that point he realized he probably  
10 was wanted. It may have been a fake wanted poster, but the  
11 defendant figured that he was wanted, stopped using his cell  
12 phone, ditched that, leaves it at the house.

13 Again, all this conduct, ladies and gentlemen, this  
14 is not the conduct of an innocent bystander or somebody who is  
15 at the wrong place at the wrong time. This is the conduct of  
16 somebody who knows they did it and is trying not to get  
17 caught.

18 Again, now the pieces have come together. The  
19 evidence that the defendant was the shooter that we've gone  
20 through is overwhelming. The defendant has -- the government  
21 has met its burden on Count 1.

22 Count 2 is very quick. I expect the Court will  
23 instruct you that to find the defendant guilty on Count 2, the  
24 government has to prove two things beyond a reasonable doubt.  
25 First, that the defendant committed the crime of forcible

1 assault of a federal officer as charged in Count 1. We just  
2 established that. That's taken care of.

3 Second, that the defendant knowingly used a firearm  
4 during and in relation to such crime. Ladies and gentlemen,  
5 the defendant used a firearm to commit this crime. That  
6 element is established.

7 Now, after Count 2 on the verdict form which you will  
8 have with you when you go back to deliberate, there will be a  
9 question that will ask you whether the government has proved  
10 beyond a reasonable doubt that the defendant discharged the  
11 firearm. Well, "discharged" just means fired. And the  
12 government has shown you that the defendant fired the gun,  
13 discharged the gun five times. You can check the "was  
14 discharged" box.

15 So ladies and gentlemen, in closing, we spent the  
16 last week focused on just a few minutes in the morning of May  
17 4th, and we broke down those minutes frame by frame, second by  
18 second to show you exactly what happened, exactly how the  
19 defendant committed this crime. And then we redid the  
20 ShotSpotter evidence, ballistics, DNA, Snapchat records, gang  
21 evidence. It's a lot of evidence for a crime that took just  
22 seconds to commit.

23 And when you deliberate, focus on those few seconds  
24 because now as you've heard and seen all the evidence, you  
25 know beyond a reasonable doubt what happened in those few

1 seconds: The defendant shot Agent Crump in the head from that  
2 gangway and then he ran. All the pieces have come together.  
3 The picture is clear. And we ask that you return the only  
4 verdict consistent with all the evidence in this case:  
5 Guilty. Thank you.

6 THE COURT: Thank you. We're going to take a  
7 15-minute recess.

8 (Recess from 11:57 a.m. to 12:12 p.m.)

9 (Proceedings heard in open court. Jury out.)

10 THE COURT: The government took an hour and eight  
11 minutes, by the way.

12 Bring the jury in.

13 (Proceedings heard in open court. Jury in.)

14 THE COURT: Please be seated.

15 Mr. Hyman, you may address the jury on behalf of  
16 Mr. Godinez.

17 MR. HYMAN: May it please the Court.

18 THE COURT: Yes, sir.

19 CLOSING ARGUMENT ON BEHALF OF THE DEFENDANT

20 MR. HYMAN: Ladies and gentlemen, I am literally  
21 going to speak to the tie, so if it makes too much noise, I  
22 will take this thing off.

23 (Audio recording played in open court.)

24 MR. HYMAN: "Fuck them flakes." Shocking to me,  
25 maybe shocking to you, but it happened all the time in the

1 Back of the Yards. Someone has to be accountable. Someone  
2 has to pay for this horrible crime committed against Agent  
3 Crump. It's human nature, ladies and gentlemen, that you  
4 would want someone to be held accountable for this crime. As  
5 I said to you a week ago, jurors have to look beyond sympathy.  
6 You have to look dispassionately at the facts. You need to  
7 look at indisputable facts to see that Ernest Godinez is not  
8 accountable.

9           The real burden of proof in this case as to who fired  
10 those shots rests with the prosecution. It's their burden to  
11 prove Ernesto guilty beyond a reasonable doubt. Judge  
12 Leinenweber will tell you that you must conscientiously accept  
13 the instructions of the Court. And he will instruct you,  
14 members of the jury, that the defendant is never required to  
15 prove his innocence. He will tell you the defendant is  
16 presumed innocent of each and every one of the charges.

17           This presumption continues throughout the case  
18 including, including during your deliberations. It is not  
19 overcome, his innocence is not overcome unless from all the  
20 evidence in this case, you are convinced beyond a reasonable  
21 doubt that Ernest Godino -- Ernesto Godinez is guilty as  
22 charged.

23           His Honor will tell you that the government has the  
24 burden of proving the defendant's guilt beyond a reasonable  
25 doubt. This burden of proof stays with the government

1 throughout the case. The defendant is never required to prove  
2 his innocence. He is not required to produce any evidence at  
3 all.

4 Ladies and gentlemen, those are going to be Judge  
5 Leinenweber's words, not mine. And a reasonable doubt, a  
6 reasonable doubt arises not only from the evidence which has  
7 been presented, but I suggest to you that reasonable doubt may  
8 also arise from a failure of evidence to be presented to you.

9 What are the indisputable facts? Maybe when I talked  
10 to you, my opening statement last week, you sort of figured,  
11 what he's talking about, all these facts that he was admitting  
12 to. Well, now you know. It's indisputable, Ernesto was on  
13 Wood Street. He lives on Wood Street. Vicky, Victoria  
14 Jean-Baptiste is picking him up. That's indisputable. He's  
15 going to the trap house.

16 Now, there were a lot of inferences that were made by  
17 the prosecution for an hour, so I'm going to make another  
18 inference. You can infer from what Ernesto Godinez did by  
19 going to that trap house and going back and waiting for  
20 Victoria Jean-Baptiste and going to the Shell station to pick  
21 up rolling papers is that is where he kept his marijuana.  
22 That's where he kept his dope. And I'll talk about that in a  
23 little while because you heard that from the best money the  
24 government has spent, the \$10,000 informant. And I'll get to  
25 that.

1           He told you no one keeps their weed in their house,  
2 right. We keep drugs nearby so the cops can't charge us.  
3 That's an indisputable fact.

4           Everybody heard those shots, ladies and gentlemen.  
5 Victoria heard those shots. The neighborhood heard those  
6 shots. Sergeant Evans, he came in. He had to be subpoenaed  
7 in, wouldn't talk to me. It's okay. Everybody is dragged  
8 before the grand jury. They're arrested to talk. This is a  
9 Chicago policeman, won't talk to me. We have to subpoena him  
10 into the courtroom. Oh, talk to me on the stand, counsel.

11           He said they canvassed, they went around asked  
12 people, knocking on doors. Everybody heard those shots.  
13 That's an indisputable fact. Even their additional agent who  
14 is there, Schoenecker, he told you, "I thought it was ten  
15 shots. I thought, but they're not for us. They're not meant  
16 for me."

17           Officer O'Neill, the driver of the agents' car, he  
18 said, "Yeah, I heard the shots. They were coming from behind  
19 us." Indisputable facts.

20           And what you also hear as indisputable facts is from  
21 Officer Spratte. Now, Spratte hears those shots. He takes  
22 cover. And he says that he sees someone with a muzzle flash.  
23 He sees a couple of muzzle flashes, right, two muzzle flashes.  
24 That's not what he told Mr. -- Sergeant Evans, now Sergeant  
25 Evans, back on May 4th of 2018. Yes, he was upset. Yes, he

1 went to the hospital, but you heard evidence, he had no  
2 difficulty in talking to him.

3           What does he tell you, ladies and gentlemen? Evans  
4 tells you that in the sequence of the order of the  
5 conversation, an unknown person wearing a white shirt and two  
6 muzzle -- and muzzle flashes, not two. Muzzle flashes.  
7 Standing on the sidewalk, not hiding in the bushes, not on the  
8 mouth of the alley, standing on the sidewalk down the street  
9 on the north side, northwest side of that street.

10           He sees the man in a white shirt. Again, that is an  
11 indisputable fact. But by the time he gets to trial, as you  
12 remember, Mr. Spratte had other thoughts. "Well, we're  
13 really -- I wasn't sure if I saw him there. He may have been  
14 down the street. He may have been down the block when I  
15 turned and saw Agent Crump getting put into the car. I'm not  
16 sure where I saw him," one year later.

17           But what's indisputable for you, what's indisputable  
18 for you is that Spratte told Evans that night, not two nights,  
19 not one year, that night, a man -- there was a man in a white  
20 shirt on the sidewalk.

21           And what's also indisputable, that video looking  
22 south from 4324 South Hermitage. And let's look -- that's  
23 looking north. We want to look south first. There we go. So  
24 this is just before -- as members of the jury, you will see  
25 the car, this car coming into view. There is Mr. O'Neill, the

1 car Mr. O'Neill was driving along with the other agents.

2 (Said video recording played in open court.)

3 And if you look closely, you see down towards the end  
4 of the block pretty clearly, and you see it stopped. And it's  
5 stopped because as O'Neill, and they all told you, they get  
6 out of the car to start walking across the street.

7 O'Neill makes the turn. And there it is. There's  
8 the turn there. Other than the movement of the wind of the  
9 bushes and the trees, members of the jury, there is no one  
10 standing on the sidewalk at 4332, no one. You can make up  
11 whatever you want about, well, it's sort of hidden. Whatever  
12 it is, there is nobody standing on the sidewalk.

13 Those were the words of Spratte. Those were not my  
14 words. Those were Spratte's words. Those were not Evans'  
15 words. Those were the words that he took down. And there,  
16 now you see, it's after the shooting, and there is no one on  
17 the sidewalk.

18 And then let's look to the north. We'll go back to  
19 our north view. We want that video of the north. If you  
20 can -- now, it's sort of on the side, so you've got to kind of  
21 crook your head a little bit. But this is, as you saw the  
22 video of the car going from the south, this is the car as it's  
23 seen in the north.

24 And I want you to bear with me and have a little  
25 patience because I'm going to ask that we play this through so

1 you can see the squad car, the undercover car, zoom by with  
2 Agent Crump in it.

3 (Said video recording played in open court.)

4 Again, as Mr. Pissetzky pointed out just today, there  
5 is nobody standing on that street. There is no one with a  
6 white shirt looking down the street. There's not a shadow in  
7 that video of an individual, not a shadow. There is no one  
8 because there was no one at that 4332.

9 Those are -- that's an indisputable fact because -- I  
10 don't want to say it's an old saying, but I always get into  
11 this. A picture is worth a thousand words. Everybody's heard  
12 of it. We've all heard of it. Where is the gunman? Where is  
13 the gunman at 4332 South Hermitage? He's not there because  
14 he, Mr. Ernest, Ernesto Godino -- Godinez did not fire that  
15 weapon. He did not fire a gun at all. He is not accountable  
16 for this horrible act. And those indisputable facts, members  
17 of the jury, are what reasonable doubt is all about. That's  
18 reasonable doubt.

19 Let's talk another indisputable fact that you've  
20 heard multiple times: "Did you know, Officer Schoenecker, who  
21 you were looking for?"

22 "No."

23 "Did you know, Officer O'Neill, who you were looking  
24 for?"

25 "No."

1 "Did you have a description?"

2 "No."

3 "How about a description of a man in a white shirt?"

4 "No."

5 You're just going to grab whomever you want out on  
6 the street and that's your suspect? You never heard, ladies  
7 and gentlemen, one word about, "Who are we looking for? What  
8 are we doing?"

9 We're relying upon an officer? Yes. We'll give him  
10 the benefit of the doubt. That was his first shooting. I'm  
11 sure it was -- and he said it was emotional. You could tell  
12 it was emotional for that young officer. But guess what?  
13 He's trained for it. That's what he goes for: Training,  
14 training, training. That's the purpose so when it comes that  
15 time, he knows -- he said, "I fired my shot for my protection,  
16 the protection of my other brother officers, and I fired it  
17 only at the muzzle, the muzzle flashes."

18 "Did you see a muzzle flash looking north? Did you  
19 see a muzzle flash looking south?"

20 No, because no guns -- no gun was fired by Ernesto  
21 Godinez at 4332 South Hermitage. And we'll talk more about  
22 that. Again, an indisputable fact that, ladies and gentlemen,  
23 is not proved beyond a reasonable doubt. It is reasonable  
24 doubt in the affirmative. If you talk about it in the  
25 affirmative, it's reasonable doubt.

1           What's another affirmative, indisputable fact?  
2 Ernesto is wearing black. He didn't change. He fires, he  
3 goes back to his house, he's in that house. You saw the  
4 video. You saw the Snapchats. He's in the house for almost,  
5 what, four minutes. He comes out, he's wearing the same  
6 clothes, right. He gets picked up by Victoria.

7           What does she tell you? Okay. You may not like  
8 Victoria. You may think it's a little -- you know, he was  
9 with this young woman at 3:00 o'clock in the morning. But  
10 what does she tell you? What does she corroborate? That's  
11 just a fancy word lawyers use to say, it supports. It  
12 bolsters what was going on that night. They were going out to  
13 smoke dope, party, pick up Adriana, and she was going to go  
14 back to work. That's corroboration. That's a reasonable  
15 inference you can make from that.

16           And let's talk about -- as I told you when I started  
17 this, let's talk about things that we're not going to hide.  
18 We're going to talk and discuss about that. And that was the  
19 statements that he makes to Victoria when he gets into the  
20 car. He leans back, according to her, says, "Fuck those  
21 flakes."

22           Let's go back to the Disciple Killer. Let's go back  
23 to the government's informant, the \$10,000 informant. And  
24 what does he say? Pissetzky asked him, "You hear shots. Do  
25 you agree? What do you say?"

1           And I apologize for this language, but this is what  
2 was used: "Fuck those flakes." He tells you that himself.  
3 He corroborated. Everybody in the neighborhood, they hear the  
4 shots, it's not the Saints area so, right, that's what they're  
5 thinking: Fuck those flakes.

6           You can infer Ernesto heard those same shots. You  
7 can infer that when he's in the back in that little trap house  
8 that you've seen pictures of in the back of the gangway to get  
9 his marijuana to be with Victoria, he hears those shots and he  
10 gets out of there, too. That's an indisputable fact.

11           Going to Manny's house, his friend Manny, sometimes I  
12 think they call him their cousin, they learned -- as you heard  
13 from Destiny Rodriguez, they saw on social media that there  
14 was -- that Ernesto's picture came up with some sort of  
15 warrant, some symbols of warrant from the government, that  
16 he's wanted for the shooting.

17           Ladies and gentlemen, his statements, if you heard  
18 her and listened to her which I'm sure you've done, you have  
19 your notes, she said he wrapped his arms around -- they spent  
20 the day, she and Ernesto and the baby spent the day and they  
21 went to the Shake Shack. They went out. They ate. They go  
22 back to Manny's house.

23           And when he -- when they're there and they see this,  
24 they see this frightening thing, Ernesto Godinez is charged  
25 with shooting an officer, he doesn't say, "Oh, I'm sorry for

1 that." What he says is, "Listen, I'm sorry for all what I  
2 have put you through, everything" because he doesn't know  
3 what's going to happen to him. He's now -- people are saying  
4 he's the shooter of this agent. And he leaves, right. He  
5 leaves because it's hot.

6 What did Ruiz say? What does everybody say? "We get  
7 out of there. When the neighborhood is hot and the police are  
8 there, we don't want to be around." Ernesto Godinez did not  
9 flee to Mexico. Ernesto Godinez did not go down to southern  
10 Illinois. He didn't go to Wisconsin. Ernesto Godinez  
11 through -- and you heard Officer Winter tell you, "They came  
12 to me, and I surrendered him." He surrendered to police.

13 There's nothing wrong with surrendering. He wanted  
14 to face exactly what everybody said he was being accused of.  
15 That is an indisputable fact and, ladies and gentlemen, that  
16 fact has not changed.

17 I think what you saw this morning, with all due  
18 respect to the prosecutors, is that they have strung together  
19 facts as an underpinning of a narrative to hold Ernesto  
20 Godinez accountable, but these facts do not prove Ernesto  
21 Godinez guilty beyond a reasonable doubt.

22 Now, like the prosecutors, you may have some  
23 suspicion. You may think, well, like the prosecutors, there's  
24 a possibility that Ernesto shot this agent, but that is not  
25 proof beyond a reasonable doubt. Being in a gang is not proof

1 beyond a reasonable doubt.

2 And I remember last Monday when Judge Leinenweber  
3 specifically asked everyone, you know, you sat through all  
4 this, you've heard people say -- and he asked, the fact that  
5 Mr. Godinez is in a gang, will you still give him the same  
6 ability, will you have the ability to decide his fate and not  
7 give the government a leg up?

8 And each and every one of you, all of you said "yes."  
9 And that was important to us. It was important to us because  
10 he's in a gang. We never disputed that. I told you that in  
11 my opening statement. But go beyond that. That does not  
12 prove him guilty beyond a reasonable doubt.

13 You may not like gangs or anything about them, but  
14 stick to the indisputable facts in this case. Facts do not  
15 prove reasonable -- these facts do prove reasonable doubt, not  
16 proof beyond a reasonable doubt. They prove reasonable doubt.

17 How do we know that? Let's talk about the man in the  
18 white shirt. And yes, it was before the shooting in this  
19 case, about 22, 27 minutes as you play with their -- with the  
20 numbers on those cameras. But there is -- excuse me -- a man  
21 in a white shirt, and he's seen on the video of the evidence  
22 we produced.

23 You remember Mr. Greene, the gentleman from the ATF  
24 who put all this together, all this -- all these fancy  
25 pictures and postings and circles? What did he say? "Oh, I

1 missed that." He missed the man with the white shirt. So  
2 let's play where you see the man with the white shirt. Yes,  
3 there we go.

4 (Said video recording played in open court.)

5 MR. HYMAN: Look closely to our circle. You will see  
6 a man in a white shirt. There he is. He goes towards the  
7 garbage cans and walks across. You see the figure walking  
8 across and into the back.

9 Ladies and gentlemen of the jury, that is an  
10 indisputable fact that that man in the white shirt is closer  
11 to 44th Street. That man in the white shirt is an element of  
12 a video that is indisputable.

13 Let's talk about what is reasonable doubt again.  
14 Spot Shotter -- or ShotSpotter. ShotSpotter, Mr. Greene, Paul  
15 Greene, he is the forensic engineer who isn't an engineer,  
16 right? But he sure is a shareholder in that company, a  
17 shareholder. And his results fluctuate depending upon who's  
18 writing the report.

19 Remember, there were two reports in this case: One  
20 May 4th, 2018; one April 10th, 2019. The first was done by an  
21 associate of his. And he said, "Listen, there is an 80  
22 percent accuracy or a 20 percent inaccuracy of this, of our  
23 system."

24 Then Mr. Greene, the shareholder, gets here. It has  
25 gone from 80 percent to 90 percent of accuracy. Remember when

1 he said, "Oh, but that changed. The 80 percent accuracy  
2 changed in January of 2018."

3 Okay. Well, if that's the case, then his associate,  
4 his other engineer who is writing the report forgot to read  
5 the memo because he specifically said in May of 2018 there's  
6 only an 80 percent rate of accuracy, 20 percent inaccuracy.

7 Now, the importance of this ShotSpotter, the City of  
8 Chicago has obviously spent a lot of money, probably millions  
9 of dollars, on this system. And there is a policy, did you  
10 hear that, a private policy that they cut off the voice, voice  
11 recording. You heard Mr. Spratte in that recording before  
12 they shut it off goes, "Where's he at? Over here -- over  
13 there," click.

14 This is not just any shooting. This is a shooting of  
15 an officer, serious crime. Spot Shotter -- ShotSpotter  
16 couldn't release that information? Why? What's proprietary  
17 about it? If you're going to help prove a case beyond a  
18 reasonable doubt, get that information. Ladies and gentlemen,  
19 it wasn't there. It cut it off. For what, a private policy  
20 for a company that's been involved in lawsuits?

21 And how about the wiggle room? Oh, yeah, we can  
22 only -- while we tell you where the shooting happened, it's  
23 still within 25 meters, 82 feet. That's in the reports. But  
24 when it gets in front of here, in front of you, ladies and  
25 gentlemen, Mr. Greene all of a sudden has now narrowed it to

1 10 to 12 or 15 feet. How do you believe him about that?

2 And how about the great -- that's the limited -- and  
3 I wrote this down and I'm sure you did, too, the limited  
4 performance guarantee. What is that? Are we buying a  
5 dishwasher here? This is an important fact.

6 And how about the five shots that were not  
7 calculated? The government has shown you this chart that  
8 showed where these times of these shots. The only shots that  
9 are picked up -- you'll see these flex numbers. The only  
10 shots that were picked up were Agent Officer Spratte's.

11 Do you remember what Greene told you? They got a  
12 call from the Chicago Police Department. They asked them,  
13 well, "Can you hand-do this. Can you manipulate this? Can  
14 you triangulate this through a manipulation?" Of course, they  
15 could manipulate. And what did they come up with? The  
16 government didn't ask him what the address was.

17 I said, "Wait a minute. The address you came up with  
18 was not 4332. You came up with 4338." That's -- remember, he  
19 talked about those hyperbolic curves and they all met. Well,  
20 that's the address: 4338. Take that and take that out, maybe  
21 it will get to 4332 but, ladies and gentlemen, it will also  
22 take you to 4344 where the gunshot of Officer Spratte was  
23 found in the side of the building. Let's talk about now --  
24 ShotSpotter, reasonable doubt just by that alone.

25 Let's talk about the evidence collection. Remember,

1 I told you reasonable doubt may arise from a failure of  
2 evidence presented. Above all else, ladies and gentlemen,  
3 think about this. Above all else, what about those casings in  
4 the gangway? Who found them? Shrug of the shoulder.  
5 Mr. Evans, Detective -- Sergeant Evans, "I don't know."

6 "Mr. Presnell, you're the forensic investigator. Who  
7 found them?"

8 "I don't know."

9 We do know whoever found it, some unit officer, some  
10 beat officer who's got the numbers and the markings of the  
11 police department on it, they put it there. They put it  
12 there, but there's no -- no one knows. But Mr. Presnell comes  
13 in. He puts his marks. He puts his marks -- go to the next  
14 one.

15 The next one, please, next picture, group of  
16 pictures. There we go.

17 He puts his marks all through there because his are  
18 just the plain ones, right. So we have 1, 2, 3, 4. Four  
19 casings. Who found them? No one knows.

20 "Well, if you have the casings, Mr. Presnell, do you  
21 send them anywhere?"

22 "We send them to the forensic crime lab."

23 Okay. You can pick up an impression on the casing,  
24 on a metal surface. Where is that impression? Ladies and  
25 gentlemen, what was the rush by the Chicago Police Department

1 to put this into some sort of system? This is, you may not  
2 want to worry about any of the other four to 500 shootings  
3 that occur a year in this city, but this had a priority. This  
4 was a young agent, an officer shot, one of theirs. And what  
5 do they do? Mr. Jacobsen told you, Agent Jacobsen told you,  
6 they cleaned them. They cleaned them.

7 Now, the first thing Agent Jacobsen did is he got  
8 that bullet that was found in the grass, and they sent it to  
9 Washington, D.C. They sent it to Washington, D.C., to see, A,  
10 if there's DNA, right. Then after the DNA, then you can do  
11 fingerprinting. They did that. And then they make the  
12 decision -- then they can look at it microscopically, as  
13 Mr. Esposito told you, to determine what type of gun it had  
14 come from, that little fragment of a bullet.

15 What about the Chicago Police Department? Why clean  
16 something that doesn't need to be cleaned? ATF tried to raise  
17 the impression, and that was just on the bullet. Can you  
18 imagine what you could possibly get on a whole cartridge?

19 And how about, there's four there, ladies and  
20 gentlemen. You can count it, right. And where did the fifth  
21 come from? Let's go to the next picture, please.

22 This picture shows an area where Mr. Presnell, the  
23 circle would be where Presnell carefully looked to determine  
24 is there evidence there. Right, you remember him saying that.  
25 "I looked, and I made sure, and I look in the dirt and I see,

1 where's the evidence." And he walks away.

2 "Investigator, forensic investigator Presnell, did  
3 you put any red tape there? Did you block this area off?"

4 "No."

5 "Did anybody put any yellow tape there?"

6 "No."

7 Okay. And what happens? He comes back. And look at  
8 the -- one other thing, ladies and gentlemen. Look at the  
9 placement of these casings, cartridge casings.

10 If you can go back out to the first one. It's a  
11 little wider. Yes, right there.

12 Remember what Esposito said? He said when you fire  
13 these automatic weapons, they go back and they go six to eight  
14 feet out. Now, yes, they could -- if you remember the two of  
15 Spratte's, they bounced. One was found in the street and one  
16 was on the sidewalk. They're sort of neatly -- two are neatly  
17 placed along the edge and a couple are thrown in the -- or are  
18 seen on the sidewalk.

19 And then there's the spot which is circled. It has a  
20 little white piece of paper there. I want you to pay  
21 attention to the next photograph because in the next  
22 photograph -- okay. There it is, a little closer. Right.  
23 See, he supposedly doesn't find anything there. No one sees.  
24 And these aren't rusted old bullet casings, shell casings.  
25 These, according to him, look pretty fresh.

1 But then he comes back, remember. He says he leaves  
2 that gangway, comes back. And what does he find?

3 Next picture, please. Next. Next.

4 The fifth casing, right? Where is it? Right where  
5 that white paper is. How did everybody miss it? A, we don't  
6 know anything where it came from. Okay. They all came from  
7 the same -- fired from the same gun. But guess what? There  
8 are -- as you remember Esposito, he said there were three  
9 different types of cartridge casings, three different types of  
10 manufacturers. How did he miss that shiny object? How did  
11 all these people looking and searching and scouring miss this  
12 shiny object? Ladies and gentlemen, that is proof to you of  
13 reasonable doubt.

14 And let's talk about what Mr. Presnell said to you  
15 and what he -- what the photos were, the photos that he took  
16 when he gets on the scene two hours later. Everybody's --  
17 everybody is already there. He comes in a couple hours later.

18 And that's the next series of photos. No, go to the  
19 street photos, please, all the street photos, please. All  
20 right.

21 With this, lo and behold, taken by Presnell that  
22 morning, here's from the mouth of this gangway looking  
23 straight down. The bushes haven't moved. Those same  
24 evergreens on the right are still there. Who can see  
25 anything? You can't see from down there.

1           Even with all these police cars around it, all these  
2 guys standing around, you cannot see down. As he said, he  
3 measured it off. Remember, I asked him how far was that from  
4 there to the fireplug down on the corner? 400-some odd feet.  
5 Can't see.

6           And what else did he photograph? Looking this way  
7 which we showed earlier, looking north. You can see plenty.  
8 Here's the video. You saw the circle that Agent Jacobsen did  
9 of the video camera on the house with the brown -- with that  
10 brown siding. It looks right down at this gangway.

11           If someone was there, you would have seen it. It  
12 would have been an indisputable fact. It's not. That is  
13 proof beyond a reasonable doubt. It is not proof of any kind  
14 other than Ernesto Godinez is not the accountable person in  
15 this case.

16           And what else did Presnell take? The gangway, the  
17 trap house. There it is, the trap house. This is where  
18 Ernest Godino -- Ernesto Godinez picks up his dope. That's  
19 where he is.

20           The next, front. The next, there. From this  
21 position, remember, this is where Presnell finds these  
22 cartridge casings fired by -- and Sergeant Evans finds these  
23 cartridge casings found by -- fired by Mr. Spratte.

24           What is the direction Spratte is firing into? He  
25 fires into the side of the fence, right, because what do we

1 have in that photo? As you get closer, you see as he's firing  
2 into the side, he has found two different bullets, right. One  
3 was on the corner. And where does that bullet take you? It  
4 takes you to 4344 South Hermitage. And this is a photo of  
5 that. Keep that up.

6 This is a photo from that angle looking at both the  
7 east and the west sides of Hermitage, indisputable facts that  
8 someone could have shot from there. And look at the angle of  
9 trajectory. It goes -- you can stand behind that corner on  
10 the left-hand side of the photo and shoot right towards that  
11 house. And guess where it hits?

12 Next photo, please. No, the next photo of the house.  
13 The photo of the house, the side of the house.

14 Bear with me, ladies and gentlemen. I ask for your  
15 patience.

16 There we are, 4344, the bullet in the side of the  
17 house. You can see it on the lower portion of that camera --  
18 of the photograph. There it is. It's a little bit closer.  
19 And there again where that bullet ends up. Now, Mr. Spratte,  
20 Agent Spratte didn't think that that bullet came from his gun,  
21 didn't go through the fence. Ladies and gentlemen, that is  
22 reasonable doubt.

23 Here's what else is indisputable fact that the  
24 government has told you this morning is proof beyond a  
25 reasonable doubt. All these sophisticated videos, ladies and

1 gentlemen, no gun was ever recovered. Now, they can say that  
2 they have superimposed the video and stopped the video of  
3 Ernesto running across the gangway, but there's no gun there  
4 because if there was a gun there, someone would have told you  
5 besides the prosecution in their closing argument that there  
6 was a gun there.

7           It could be his cell phone. Why? Because he's  
8 Snapchatting with Victoria. He's not going to leave the phone  
9 in the house. He's Snapchatting. That's not a gun. There is  
10 no evidence that there is a gun. No gun is found. That's  
11 indisputable.

12           Also what's indisputable: Ernesto's cap. It could  
13 have had gunshot residue over it. It could have had gunshot  
14 residue on it. You heard the sergeant this morning say, yes,  
15 he tests for gunshot residue all the time. It can transfer.

16           What do you see in the photo? You see Ernesto coming  
17 back to the house. You see him taking his hat off and wiping  
18 his hands and putting his cap back on. If he fired that  
19 firearm like they want you to believe in this case, all they  
20 had to do when they seized that cap from Victoria's car on May  
21 7th of 2018 is to test it for gunshot residue.

22           They tested it for DNA. Why did they have to test it  
23 for DNA? They have the video of him wearing the hat. Of  
24 course, it's him. Why not test it for what can prove guilt  
25 beyond a reasonable doubt? Gunshot residue. Members of the

1 jury, that's an important fact, the transfer between the hands  
2 and the hat. That failure is proof of reasonable doubt.

3 Let's talk about the federally funded \$10,000  
4 informant. What's interesting, Mr. Ruiz or Mr. Alejandro or  
5 DK or whatever you want to call him, he said there were no  
6 written rules, right. The government says, okay, there's no  
7 written rules. Why? I guess because you can ask the  
8 government to amend those rules at any time.

9 Why do I say that? Because don't you remember what  
10 their own witness said, right, their own individual who they  
11 have paid good money for, who's committed crimes, who was  
12 arrested by Homeland Security, who has been working for them?  
13 What does he tell you is there are three people that stand  
14 out. "We stand outside. We want our presence to be known.  
15 I'm not going to hide in some gangway. I'm not going to just  
16 fire. We're going to fire down that street, but we're going  
17 to be there."

18 Well, I guess one reason is you can -- those rules  
19 aren't written down is because you can easily, easily amend  
20 them. The government did it for you today by saying, oh, he's  
21 a shooter and he's standing guard. That is not what -- even  
22 Ruiz told you that isn't what happened. You've got three  
23 people. They want to know, in this gang neighborhood, the  
24 gang members want the next group of guys to know, the flakes  
25 to know, they're there, don't come in.

1           What Ruiz does, ladies and gentlemen, do for you is  
2 corroborate, corroborate what Destiny told you is that when he  
3 talked to the agents on April -- the Homeland Security guys in  
4 April of 2018, he was debriefed. And one of the things he  
5 talked to them about was Ernesto Godinez. What did he say?  
6 He was a low-level drug dealer, right.

7           March 2019, Ruiz, into the grand jury, oh, he's  
8 cooperating. He's got all our agreements. That's -- that's  
9 wonderful. What does he say? Oh, he tags him as a shooter.  
10 Ladies and gentlemen, look at that testimony with suspect.  
11 Look exactly what he's telling you he claims. He has changed  
12 his story. Once he's got the grand jury, he's going to the  
13 grand jury to make this case to hold Ernesto Godinez  
14 accountable.

15           The other thing Ruiz does corroborate as I told you  
16 earlier, he says when they hear gunshots, what do they all  
17 say? "Fuck them flakes." And what do they also do? They  
18 also get out of the neighborhood. Why? Destiny Rodriguez  
19 told you why. Victoria Jean-Baptiste told you why. And even  
20 this guy told you why. They don't want to be harassed. They  
21 don't want to be harassed by the police, right?

22           And in this case, definitely they would have been  
23 harassed. And Victoria, sure, it's okay that Victoria  
24 Jean-Baptiste is brought to the grand jury. First, don't  
25 forget what she said. She was arrested. What was she

1 arrested for? What did she do? She's arrested, a 19-year-old  
2 girl. She's arrested. She tells them some things. They  
3 don't believe her. Then she admits to some other things, that  
4 she had actually gone to Ernesto's house first before she went  
5 to pick Adriana up.

6 And then they bring her to the grand jury. And then  
7 they want you to believe, oh, everything she said the first  
8 time because it was closer in time is true. But, oh, Officer  
9 Spratte, ladies and gentlemen, think about it. Officer  
10 Spratte, within hours of the shooting, tells Detective Evans,  
11 "Yeah, there's an unknown person, white shirt and muzzle  
12 flashes." By the time he comes here a year later, now  
13 somebody's standing down the street. "Oh, I'm not sure where  
14 I saw him."

15 Guess what? You can say to them, you can say that is  
16 not proof of reasonable doubt. That is -- beyond reasonable  
17 doubt. That is reasonable doubt. Ladies and gentlemen, there  
18 was nobody in those videos. A picture is worth a thousand  
19 words.

20 Oh, and which is sort of interesting, I'm sure you  
21 remember this as well, you remember Ruiz says, "I don't -- I  
22 don't like the Godinez family." He admitted that, that they  
23 didn't like each other. But despite the fact that he was an  
24 informant, despite the fact that the government, our  
25 government, has paid him \$10,000, despite the fact that he

1 gets the "get out of jail free" card, despite the fact that  
2 he's going to stay in this country, despite the fact that he  
3 shot people and admitted he shot people and has never been  
4 charged, despite all of that, think of it, there is not one  
5 statement that came from that man to say Ernesto Godinez fired  
6 that weapon.

7           Of all the super intelligence he was going to give  
8 the government, there's not one statement from any of these  
9 other people that he was going to entrap or talk to that  
10 Ernesto Godinez fired that shot. That, ladies and gentlemen,  
11 is reasonable doubt.

12           And I just want to say a couple of things before I  
13 end here. The government talked, the prosecutors have talked  
14 about the blind spot. Remember, they had this picture what  
15 they said that was a blind spot in the -- on the video.  
16 Ladies and gentlemen, use your own eyes. There is no blind  
17 spot. If -- if you want to believe Spratte that he was down  
18 the street and he fired that weapon and he's standing on the  
19 sidewalk, that video, that video alone is enough to show you  
20 reasonable doubt. There is no blind spot there.

21           And this whole thing about his driving around with  
22 the Kia, that he's patrolling, that he's looking for other  
23 unknown gang people, well, if you look at the video as he's  
24 going down 44th Street and he gets to Wood, he uses his turn  
25 signal. Is that someone who's patrolling, looking for other

1 offenders -- other gang members? I doubt it if he's going to  
2 use his -- and when he runs across -- when he runs across the  
3 street, look at the time again. You want to take a look at  
4 what reasonable doubt is? He runs across, according to their  
5 timeframe, about 3:15 and some seconds, right.

6 Schoenecker's car drives by the other direction on  
7 a -- over a block away at 3:16. He doesn't even see him.  
8 There's no connection between the two. You have collapsing  
9 theories here. They're trying to put it all into one and  
10 that, ladies and gentlemen, is reasonable doubt.

11 Now, when I sit down, I don't get a chance to come  
12 back up. Neither myself nor Mr. Pissetzky is going to be able  
13 to pop back up and have one more shot at it because that's  
14 what the law is. It's the government's burden. They had to  
15 prove Ernesto Godinez beyond a reasonable doubt, guilty beyond  
16 a reasonable doubt. So they have the burden. And that's  
17 fine. That's fine. We accept that. And if they want, they  
18 can get up and rebut what I have to say.

19 But during your deliberations, when you go back to  
20 that room and you're sitting and talking about this case and  
21 some one of you says that they wish to return a verdict of  
22 guilty, you can say that -- and you can stand up and you can  
23 say the prosecution has the burden here.

24 How can they overcome the testimony of Spratte that  
25 the person, the unknown person in the white shirt. You can

1 say to your fellow members, how do they overcome the video,  
2 Godinez Video 1, of the camera of the man in the white shirt  
3 going someplace closer to 44th Street?

4 You can say, how does Godinez Video 2 facing  
5 southbound on that -- on Hermitage Street, how does it show  
6 muzzle flashes? You can say, how can they overcome the video  
7 looking south -- looking northbound from -- with no one  
8 standing on the street or the sidewalk in a white shirt before  
9 the police car goes by.

10 You can say, how are they going to overcome, no one  
11 knows who found those cartridge casings by the Chicago Police  
12 Department. You can say, confidently say, how are they going  
13 to overcome what was the rush to test those cartridge casings?  
14 What was -- where was the attempt to take the fingerprint  
15 impressions when they knew they could get prints? The ATF  
16 tried it on the bullet, may not have been successful, but they  
17 tried it.

18 You can say to them, how is the government going to  
19 overcome while they had in their possession an item of  
20 clothing of Ernesto's -- Godinez that he was seen wearing the  
21 baseball cap and not a test for gunshot residue? How are they  
22 going to overcome that? Say that to your fellow members.

23 How do they overcome no guns recovered? They can  
24 wish, they can imply, they can make up whatever they say they  
25 believe they saw, but it's for you to determine what is in

1 that video. And there is no video of Ernesto Godinez firing  
2 that weapon. There's no -- ladies and gentlemen, there's no  
3 video of anyone firing that weapon with muzzle flashes from  
4 the mouth of the gangway where the cartridge casings were  
5 found.

6 His honorable -- when we're all done, his Honor will  
7 give you, read you these instructions. It's your roadmap of  
8 how you're going to decide this case, how to figure out what  
9 all this evidence is.

10 As I say, when I sit down, that's it. Members of the  
11 jury, you have to speak for Ernesto Godinez. You have to  
12 return a fair verdict. You have to return a verdict in the  
13 name of justice. Only you, only each one of you together,  
14 collectively, you have the power of returning two verdicts of  
15 not guilty. Thank you.

16 THE COURT: The government has 12 minutes.

17 MS. BABU: Thank you, your Honor.

18 MR. HYMAN: Ms. Babu, do you want this?

19 MS. BABU: It doesn't matter. Thank you.

20 REBUTTAL ARGUMENT ON BEHALF OF THE GOVERNMENT

21 Ladies and gentlemen, Mr. Hyman just said that we're  
22 here because the government thought there was a possibility  
23 that the defendant was the shooter. We didn't think there was  
24 a possibility. We're here because the defendant shot Kevin  
25 Crump on May 4th, 2018, at 3:18 in the morning. That is why

1 we're here.

2           And oddly enough, I found myself sort of surprised,  
3 defense counsel and I, we agree on a whole lot apparently.  
4 First, this was a very emotional moment for Officer Spratte.  
5 That is absolutely true. Mr. Godinez, the defendant, he  
6 didn't change his clothes in his house. We agree on that.  
7 The man in the white T-shirt in that video at 2:52 in the  
8 morning, yes, Steve Greene, he missed that. He told you that  
9 on the stand. We agree on that. That man in the white  
10 T-shirt, never seen again, not once, not in any of the video  
11 that you will have back there with you when you deliberate.  
12 You never see that man in the white T-shirt again.

13           We also agree on the fact that Hector Ruiz, the  
14 government's witness, he doesn't identify the defendant as the  
15 shooter. He wasn't there that day. He didn't even know he  
16 was going to be testifying in this trial until two months ago.

17           And finally, we agree, the defendant, there is no  
18 video of the defendant pulling the trigger. I told you that  
19 when I got up in front of you a week ago. We do not have a  
20 video of the defendant pulling that trigger. But let's talk  
21 about why we don't have a video of the defendant pulling the  
22 trigger.

23           You saw the gangway that the defendant entered, that  
24 gangway covered with the Latin Saints graffiti, the gangway of  
25 the stickman with the upsidedown pitchfork to show disrespect

1 to the SDs, the Satan Disciples which is a rival of the Latin  
2 Saints. Hector Ruiz told you that that was -- that was a  
3 rival of the Saints. You saw that same tattoo on the  
4 defendant's arm when he went into that gas station clear as  
5 day, right there.

6           You also saw the video that Agent Jacobsen took when  
7 he stood in the mouth of that gangway, the entrance into that  
8 gangway when it faced Hermitage. You saw what happened when  
9 Agent Jacobsen turned and looked to the cameras and then  
10 stepped back into the mouth of the gangway. You couldn't see  
11 those cameras anymore.

12           The defendant knew that. This was his gangway. This  
13 was a gangway of the Latin Saints. He knew where he was  
14 going. He purposely chose that gangway because he could stand  
15 there after he saw the surveillance officers circling the  
16 blocks of his neighborhood. He thought those were rivals. He  
17 had to act.

18           So he did what any good Saint would do, and he ran up  
19 the street into his house. He got his gun, ran back up the  
20 street, across that alley, into the gangway and fired five  
21 gunshots. One of those gunshots ripped through Kevin Crump's  
22 head. That is why we are here today.

23           And, ladies and gentlemen, the judge will instruct  
24 you in this case, and he will do that as soon as I'm finished.  
25 And nowhere in those instructions will he tell you that you

1 have to see a video of the defendant pulling the trigger  
2 because that is just not the case. That is not required.

3 We have proved beyond a reasonable doubt that the  
4 defendant is the shooter here, but you don't need to see a  
5 video of that. And why don't you need to see a video of that?  
6 Because of all of the other evidence that Mr. Eichenseer  
7 meticulously went through as he showed you what we did over  
8 the course of the last week.

9 You have the five shell casings in the gangway that  
10 the defendant ran into 30 seconds before the shooting; the  
11 same gangway that he ran out of seconds after shooting Kevin  
12 Crump; the same gangway that ShotSpotter put those five  
13 casings at, 10 to 12 feet from that same gangway. And then  
14 you have the defendant's statements, right, the defendant's  
15 admissions when he gets into the car of Victoria  
16 Jean-Baptiste, when he gets in her car and he says, "I feel  
17 good. Fuck that flake."

18 You have all of that evidence. You don't need a  
19 video of the defendant pulling the trigger. There is no video  
20 of the defendant pulling the trigger.

21 There is also no video of this mystery shooter in a  
22 white T-shirt because that mystery shooter doesn't exist.  
23 He's a distraction. He is a distraction by the defense to  
24 have you look away from the evidence that you do have in front  
25 of you.

1           And now, to be very clear, the burden, as Mr. Hyman  
2       said, is the government's. It is our burden, and we have to  
3       show beyond a reasonable doubt that the defendant is guilty.  
4       However, the defense has put forward a theory here, and I'm  
5       allowed to tell you why that theory is bunk.

6           So Steve Greene got on that stand, and he told you  
7       that he missed that guy in the white T-shirt at 2:52. 2:52 is  
8       26 minutes before the shooting. You don't see that guy again.  
9       But also think back to Steve Greene's testimony. Do you  
10      remember those long stretches of silence where we all just  
11      stared at our monitors because nothing was happening in the  
12      videos? Because there was no one else in those videos. The  
13      only person in that video at 3:18 is the defendant because the  
14      person who shot Kevin Crump is the defendant.

15           Now, Mr. Hyman when he was up here, he misstated some  
16      of the evidence that you saw during this trial. He told you  
17      that the bullet in the siding of that house, that's 4344. And  
18      when you go back to the jury room, I'm going to recommend that  
19      you look at Government Exhibit 403 which is the plat that  
20      Officer Presnell put together. It's the map. And it has all  
21      of the addresses. It has marked on there where the casings  
22      were found, the tree where the bullet -- sorry, the tree where  
23      the bullet hit, the bullet that went through Special Agent  
24      Crump. It marks where the blood is. It shows you where the  
25      cars are parked on the street. You can get a recreation of

1 what the scene looked like that morning.

2 Now, Mr. Hyman said that the bullet in the siding of  
3 that house was Officer Spratte's bullet. No one said that.  
4 The judge will also instruct you that my words, Mr. Hyman's  
5 words, Mr. Eichenseer's words, Mr. Pissetzky's words, none of  
6 that is evidence. The only evidence that you are to consider  
7 are what came out of the witnesses' mouths and the evidence  
8 that you take back with you. And there is no evidence that  
9 the bullet in that house was Officer Spratte's.

10 And let's -- let's talk about 4344 South Hermitage  
11 for a second. I'm not going to use the map because I have 12  
12 minutes and putting it up will take up too much time. So when  
13 you're looking at Officer Presnell's plat and you look at  
14 4344, if you look right down next to it is 4348. That's the  
15 house with the tree in front of it that the bullet went into.

16 So for this mystery shooter to have been standing in  
17 4344, he would have had to have fired a bullet, for it to have  
18 gone out of the yard and made a right turn into that tree.  
19 Bullets don't do that. You can use your common sense. You  
20 don't need an expert to tell you that. Bullets don't make  
21 right turns. They go in straight lines.

22 And you know that because -- so the bullet in the  
23 tree and the bullet halfway down the street, the bullet that  
24 had Agent Crump's DNA on it, Mr. Esposito, the firearms  
25 expert, he told you that those two bullets came from the same

1 gun. So you know that the person who fired those two bullets  
2 was the same person. And so the person standing in a yard --  
3 there was, first, no person there, but if a person was  
4 standing in that yard, he couldn't hit that tree and hit Kevin  
5 Crump.

6 MR. PISSETZKY: Objection, Judge. That's not true.

7 THE COURT: Overruled. It's argument. The jurors  
8 can make up their own minds.

9 MS. BABU: And what else did Mr. Esposito tell you?  
10 That there was the bullet in the tree and the bullet in the  
11 grass. They both came from the same gun. The five shell  
12 casings in the gangway, they all came from the same gun.

13 So let's talk about that for a second. Mr. Hyman, I  
14 think, was trying to get you to think that CPD planted the  
15 shell casings in that gangway. I think that's where he was  
16 going. So to take that to its logical conclusion, CPD,  
17 minutes after the shooting happened, some officer showed up  
18 with four shell casings. Officer Presnell showed up with a  
19 fifth at 5:00 o'clock all from the same gun.

20 They then planted, some officer planted four of those  
21 casings, and then Officer Presnell came by later and planted  
22 the fifth one. And they all just happened to be from the same  
23 gun? That doesn't make sense because it isn't true. There's  
24 no way that that happens.

25 Mr. Hyman also talked about gunshot residue and the

1 fingerprinting and the DNA. First, gunshot residue is not  
2 glitter. Just because you may have had gunshot residue on  
3 your hand on Friday morning at 3:18 doesn't mean you're going  
4 to have gunshot residue on you when you turn yourself in on  
5 Monday evening.

6 MR. HYMAN: Judge, I'm going to object to that.  
7 That's not the evidence.

8 THE COURT: Objection is overruled.

9 MS. BABU: In fact, ladies and gentlemen, Agent  
10 Jacobsen, when he was on that stand, he told you that in his  
11 five years as an agent and the hundreds of firearms cases that  
12 he's worked that you don't -- he's never had a case in which  
13 he's had fingerprints pulled off of ballistics evidence.

14 And he also told you that law enforcement had to make  
15 a choice. It was either you submit these casings into NIBIN,  
16 and he explained that NIBIN was able to track casings back to  
17 guns. And you heard from Hector Ruiz that the Latin Saints  
18 used Nation guns. They moved guns around.

19 So it is reasonable for law enforcement to think,  
20 "Hey, we'll put these casings into NIBIN, and maybe this will  
21 hit on another gun and that will further our investigation."

22 So they made a choice. It was NIBIN or  
23 fingerprinting. And Agent Jacobsen told you that to put a  
24 casing into NIBIN, they had to clean them off to be able to  
25 make that determination. And cleaning those casings off,

1 you're not going to get fingerprints. It was a choice that  
2 had to be made in that moment.

3 Similarly, the gunshot residue. Again, the shooting  
4 happened at 3:18 on the morning of May 4th. The defendant  
5 turned himself in, by the way, after his car was found in  
6 someone else's house miles outside the city. His phone that  
7 he ditched was found miles outside the house somewhere outside  
8 of the city, turned himself in on Monday evening. This is  
9 almost four days later.

10 MR. HYMAN: Judge, there's no such evidence it was  
11 outside the city. I object to that.

12 MS. BABU: Excuse me.

13 THE COURT: Overruled.

14 MS. BABU: I misspoke. Not outside the city.

15 THE COURT: Overruled.

16 MS. BABU: 15 miles outside of the neighborhood,  
17 northwest side of the city.

18 He turned himself in. It's been four days. He's  
19 likely bathed. He's certainly washed his hands. He's not  
20 wearing the same clothes. There's nothing to be tested for  
21 gunshot residue. And don't -- it's unclear to me exactly what  
22 law enforcement was to -- were to have done on that Monday  
23 evening for gunshot residue. That's not an issue here.

24 But what you should consider is the evidence before  
25 you. You should consider the ballistics evidence that you do

1 have before you. You should consider the ShotSpotter evidence  
2 that you do have before you.

3 THE COURT: Counsel, your time is up. Bring your  
4 remarks to a close, please.

5 MS. BABU: Yes. Yes, your Honor.

6 Ladies and gentlemen, you should consider all of that  
7 evidence. You should consider the surveillance videos. You  
8 should consider the defendant running out of that gangway  
9 seconds after he shot Agent Crump in the head.

10 You should consider the five shell casings in that  
11 gangway. You should consider the fact that ShotSpotter put  
12 those five shell casings 10 to 12 feet from that gangway. You  
13 should consider the fact that the defendant got into his  
14 girlfriend's car and said, "I feel good. Fuck that flake."

15 And then you should consider all of the things he did  
16 immediately after shooting Agent Crump, all of the ways he  
17 tried to change his appearance and not go back to the  
18 neighborhood. You should consider all of that evidence and  
19 find the defendant guilty of both counts.

20 THE COURT: Thank you.

21 Members of the jury, I will now instruct you on the  
22 law that you must follow in deciding this case. I will also  
23 give you a set of these instructions to use in the jury room.  
24 You must follow all of my instructions about the law even if  
25 you disagree with them. This includes the instructions I gave

1 you before the trial, any instructions I gave you during the  
2 trial, and the instructions I am giving you now.

3 As jurors, you have two duties. The first duty is to  
4 decide the facts from the evidence that you saw and heard here  
5 in court. This is your job, not my job or anybody else's job.

6 Your second duty is to take the law as I give it to  
7 you, apply it the facts and decide if the government has  
8 proved the defendant guilty beyond a reasonable doubt.

9 You must perform these duties fairly, impartially,  
10 and do not let sympathy, prejudice, fear, or public opinion  
11 influence you. In addition, do not let any person's race,  
12 color, religion, national ancestry, or gender influence you.

13 You must not take anything I said or did during the  
14 trial as indicating that I have an opinion about the evidence  
15 or about what I think your verdict should be.

16 The charge against the defendants are in a document  
17 called an indictment. You will have a copy of the indictment  
18 during your deliberations. The indictment in this case  
19 charges the defendant committed the crimes of assault of a  
20 federal officer and discharge of a firearm during the assault  
21 of a federal officer.

22 The defendant has pled not guilty to the charges.  
23 The indictment is simply the formal way of telling the  
24 defendant what crimes he is accused of committing. It is not  
25 evidence that the defendant is guilty. It does not even raise

1 a suspicion of guilt.

2           The defendant is presumed innocent of each and every  
3 one of the charges. This presumption continues throughout the  
4 case including during your deliberations. It is not overcome  
5 unless from all the evidence in the case you are convinced  
6 beyond a reasonable doubt that the defendant is guilty as  
7 charged.

8           The government has the burden of proving the  
9 defendant guilty beyond a reasonable doubt. The burden of  
10 proof stays with the government throughout the case. The  
11 defendant is never required to prove his innocence. He is not  
12 required to produce any evidence at all.

13           You must make your decision based only on the  
14 evidence that you saw and heard here in court. Do not  
15 consider anything you may have seen or heard outside of the  
16 court including anything in the newspaper, television, radio,  
17 the internet, or any other source. The evidence includes only  
18 what the witnesses said when they were testifying under oath,  
19 the exhibits that I allowed into evidence, and stipulations  
20 that the lawyers agreed to. A stipulation is an agreement  
21 that certain facts are true.

22           Nothing else is evidence. The lawyers' statements  
23 and arguments are not evidence. If what a lawyer said is  
24 different from the evidence as you remember it, the evidence  
25 is what counts. The lawyers' questions and objections

1 likewise are not evidence. A lawyer has a duty to object if  
2 he thinks a question is improper. If I sustained objections  
3 to questions the lawyer asked, you must not speculate what the  
4 answers might have been.

5 Part of your job as jurors is to decide how  
6 believable each witness was and how much weight to give to  
7 each witness' testimony. You may accept all of what a witness  
8 says or part of it or none of it.

9 Some factors you may consider include: The  
10 intelligence of the witness; the witness' ability and  
11 opportunity to see, hear, or know the things the witness  
12 testified about; the witness' memory; the witness' demeanor;  
13 whether the witness has any bias, prejudice, or other reason  
14 to lie or slant the testimony; the truthfulness and accuracy  
15 of the witness' testimony in light of the other evidence  
16 presented; and inconsistent or consistent statements or  
17 conduct by the witness.

18 A defendant has an absolute right not to testify or  
19 present evidence. You may not consider in any way the fact  
20 that the defendant did not testify. You should not even  
21 discuss it in your deliberations.

22 Give the evidence whatever weight you decide it  
23 deserves. Use your common sense in weighing the evidence and  
24 consider the evidence in light of your own everyday  
25 experience. People sometimes look at one fact and conclude

1 from it that another fact exists. This is called an  
2 inference. You are allowed to make reasonable inferences so  
3 long as they are based on the evidence.

4           You may have heard the terms "direct evidence" and  
5 "circumstantial evidence." Direct evidence is evidence that  
6 directly proves a fact. Circumstantial evidence is evidence  
7 that indirectly proves a fact. You are to consider both  
8 direct and circumstantial evidence. The law does not say that  
9 one is better than the other.

10           It is up to you to decide how much weight to give to  
11 the evidence, whatever direct or circumstantial. Do not make  
12 any decision simply by counting the number of witnesses who  
13 testified about a certain point. What is important is how  
14 truthful and accurate the witnesses were and how much weight  
15 you think their testimony deserves.

16           It is proper for an attorney to interview any witness  
17 in preparation for trial.

18           You have heard evidence that before trial, witnesses  
19 made statements that may be inconsistent with their testimony  
20 here in court. You may consider an inconsistent statement  
21 made before the trial to help you decide how believable a  
22 witness' testimony was here in court. If an earlier statement  
23 was made under oath, you can also consider the earlier  
24 statement as evidence of the truth of whatever the witness  
25 said in the earlier statement.

1           You heard testimony from witnesses who were promised  
2 a benefit in return for his or her testimony and cooperation  
3 with the government. You may give these witnesses' testimony  
4 whatever weight you believe is appropriate, keeping in mind  
5 you must consider that testimony with caution and great care.

6           You have heard testimony of an identification of a  
7 person. Identification testimony is an expression of the  
8 witness' belief or impression. In evaluating this testimony,  
9 you should consider the opportunity the witness had to observe  
10 the person at the time of the offense and to make a reliable  
11 identification later.

12           You should also consider the circumstances under  
13 which the witness later made the identification. The  
14 government must prove beyond a reasonable doubt that the  
15 defendant is the person who committed the crime that is  
16 charged.

17           You have heard testimony, namely, Arnold Esposito,  
18 Paul Greene, and Steve Greene who gave opinions and testimony  
19 about certain facts. You do not have to accept these  
20 witnesses' opinions and testimony. You should judge these  
21 witnesses' opinions and testimony the same way you judge the  
22 testimony of any other witness.

23           In deciding how much weight to give to these opinions  
24 and testimony, you should consider the witness'  
25 qualifications, how he reached his opinions, and the factors I

1 have described for determining the believability of testimony.

2           You have heard evidence obtained from the  
3 government -- excuse me. You have heard evidence obtained  
4 from the government's use of informants. The government is  
5 permitted to use these techniques. You should consider  
6 evidence obtained this way together with and in the same way  
7 you consider the other evidence.

8           An aerial map was shown to you to help explain other  
9 evidence that was admitted. The aerial map is not itself  
10 evidence or proof of any facts. If it does not correctly  
11 reflect the facts shown by the evidence, you should disregard  
12 the aerial map and determine the facts from the underlying  
13 evidence.

14           If you have taken notes during the trial, you may use  
15 these during deliberation to help you remember what happened  
16 during the trial. You should use your notes only as aids to  
17 your memory. The notes are not evidence. All of you should  
18 rely on your independent recollections of the evidence, and  
19 you should not be unduly influenced by the notes of other  
20 jurors. Notes are not entitled to any more weight than the  
21 memory or impressions of each juror.

22           The defendant has been accused of more than one  
23 crime. The number of charges is not evidence of guilt and  
24 should not influence your decision. You must consider each  
25 charge separately. Your decision on one charge, whether it is

1 guilty or not guilty, should not influence your decision on  
2 any other charge.

3 Count 1 of the indictment charges the defendant with  
4 forcibly assaulting a federal officer with a deadly weapon.  
5 In order for you to find the defendant guilty of the charge,  
6 the defendant must prove each of the following elements beyond  
7 a reasonable doubt:

8 1, the defendant forcibly assaulted Kevin Crump; 2,  
9 at the time of the assault, Kevin Crump was an officer or an  
10 employee of the United States performing his official duties;  
11 3, the defendant acted knowingly and; 4, in committing the  
12 assault, defendant either, A, intentionally used a deadly or  
13 dangerous weapon or, B, intentionally inflicted bodily harm.  
14 If you find from your consideration of all the evidence that  
15 the government has proved each of these elements beyond a  
16 reasonable doubt, then you should find the defendant guilty.

17 On the other hand, if you find from your  
18 consideration of the evidence that the government has failed  
19 to prove any one of these elements beyond a reasonable doubt,  
20 then you should find the defendant not guilty.

21 A person acts knowingly if he realizes what he was  
22 doing and is aware of the nature of his conduct and does not  
23 act through ignorance, mistake, or accident. In deciding  
24 whether the defendant acted knowingly, you may consider all of  
25 the evidence including what the defendant did or said.

1           To commit the crime of forcibly -- forcible assault  
2 of a federal officer, it is not necessary that the defendant  
3 knew the person he assaulted was a federal officer.

4           An assault is an attempt to inflict injury on another  
5 person. A person commits assault forcibly when he makes  
6 physical contact with the person he assaulted or otherwise  
7 uses physical force to commit the assault.

8           Count 2 of the indictment charges the defendant with  
9 using a firearm during and in relation to a crime of violence.  
10 In order for you to find the defendant guilty of this charge,  
11 the government must prove each of the following elements  
12 beyond a reasonable doubt:

13           1, the defendant committed the crime of forcible  
14 assault of a federal officer with a deadly or dangerous weapon  
15 as charged in Count 1 of the indictment; 2, the defendant  
16 knowingly used a firearm during and in relation to such crime.

17           If you find from your consideration of all the  
18 evidence that the government has proved each of these elements  
19 beyond a reasonable doubt as to the charge you are  
20 considering, then you should find the defendant -- excuse me.  
21 I'll start over.

22           If you find from your consideration of all the  
23 evidence that the government has proved each of these elements  
24 beyond a reasonable doubt as to the charge you are  
25 considering, then you should find the defendant guilty of that

1 charge. If, on the other hand, you find from your  
2 consideration of all the evidence that the government has  
3 failed to prove any one of the elements beyond a reasonable  
4 doubt as to the charge you are considering, then you should  
5 find the defendant not guilty of the charge.

6 If you find the defendant guilty of the offense  
7 charged in Count 2 of the indictment, you must then determine  
8 whether the government has proven beyond a reasonable doubt  
9 that the firearm was discharged. You will see on the verdict  
10 form a question about this issue.

11 You should consider this question only if you find  
12 that the government has proved the defendant guilty of the  
13 offense charged in Count 2 of the indictment. If you find  
14 that the government has proved beyond a reasonable doubt that  
15 the defendant discharged the firearm, then you check,  
16 quote, "was discharged" on the verdict form. If you find that  
17 defendant has not proved beyond a reasonable doubt that the  
18 defendant charged the firearm -- excuse me -- then you should  
19 check "was not discharged" on the verdict form.

20 Mr. Godinez's defense includes that the government  
21 has failed to prove beyond a reasonable doubt that he forcibly  
22 assaulted Kevin Crump and that he discharged the firearm as  
23 charged in Counts 1 and 2 of the indictment. In particular,  
24 Mr. Godinez's position is that the government has not proved  
25 beyond a reasonable doubt that on May 4th, 2018, he was armed

1 with a firearm, discharged the firearm, or caused bodily  
2 harm -- injury to Kevin Crump.

3 If you decide -- excuse me. In deciding your  
4 verdict, you should not consider the possible punishment for  
5 the defendant. If you decide that the government has proved  
6 the defendant guilty beyond a reasonable doubt, then it will  
7 be my job to decide on the appropriate punishment.

8 Once you are all in the jury room, the first thing  
9 you should do is choose a foreperson. The foreperson should  
10 see to it that your discussions are carried on in an organized  
11 way and that everyone has a fair chance to be heard. You may  
12 discuss the case only when all jurors are present.

13 Once you start deliberating, do not communicate about  
14 the case or your deliberations with anyone except other  
15 members of your jury. You may not communicate with others  
16 about the case or your deliberations by any means. This  
17 includes oral or written communication as well as any  
18 electronic method of communication such as telephone, cell  
19 phone, smartphone, iPhone, Blackberry, computer, text  
20 messaging, instant messaging, the internet, chat rooms, blogs,  
21 websites, services like Facebook, You Tube, Twitter, or any  
22 other method of communication.

23 If you need to communicate with me while you are  
24 deliberating, send a note through the court security officer.  
25 The note should be signed by the foreperson or by one or more

1 members of the jury. To have a complete record of the trial,  
2 it is important that you do not communicate with me except by  
3 written note. I may have to talk with the lawyers about your  
4 message, so it may take me some time to get back to you. You  
5 may continue your deliberations while you wait for my answer.

6 Please be advised that transcripts of the trial  
7 testimony are not available to you. You must rely on your  
8 collective memory of the testimony.

9 If you send me a message, do not enclose the  
10 breakdown of any votes you may have conducted. In other  
11 words, do not tell me that you are split 6-6 or 8-4 or  
12 whatever your vote happens to be.

13 A verdict form has been prepared for you. I will  
14 take -- you will take this form with you to the jury room.  
15 When you have reached unanimous agreement, your foreperson  
16 will fill in and date and sign the verdict form. Each of you  
17 will then sign it. Advise the court security officer once you  
18 have reached a verdict. When you come back to the courtroom,  
19 I will read the verdict aloud.

20 I'll go over it. It's relatively -- on the first  
21 page, it says, Count 1, with respect to Count 1 of the  
22 indictment, we, the jury, find as follows as to the defendant,  
23 Ernesto Godinez. There's a "guilty" and then there's a line,  
24 "not guilty," there's a line. You would -- your foreman would  
25 check whatever it is.

1           Now, bear in mind, you cannot answer this question of  
2           guilt or not guilty unless you do so unanimously. So you  
3           cannot render a verdict on Count 1 or Count 2 unless your  
4           answers are unanimous, which means all 12 of you.

5           And then on the next page, with respect to Count 2,  
6           with respect to Count 2 of the indictment, we, the jury, find  
7           as follows as to the defendant, Ernesto Godinez: Guilty or  
8           not guilty. The same as Count 1.

9           Then after you have decided Count 2, if you find  
10          defendant, Ernesto Godinez, guilty of the offense charged in  
11          Count 2 of the indictment, then you must determine whether the  
12          government has proven beyond a reasonable doubt that the  
13          defendant discharged the firearm.

14          And then we, the jury, find that the firearm involved  
15          in Count 2, then there is "was discharged," and there's a  
16          space and then "was not discharged," and there's a space.  
17          That also must be decided unanimously; all 12 of you, in other  
18          words.

19          Now, your verdict must represent the considered  
20          judgment of each juror. Your verdict, whether it is guilty or  
21          not guilty, must be unanimous. If you make -- you should make  
22          every reasonable effort to reach a verdict. In doing so, you  
23          should consult with each other, express your own views, and  
24          listen to your fellow jurors' opinions.

25          Discuss your differences with an open mind. Do not

1 hesitate to reexamine your own view and change your opinion if  
2 you come to believe that it is wrong, but you should not  
3 surrender your honest beliefs about the weight or effect of  
4 evidence just because of the opinions of your fellow jurors or  
5 just so there can be a unanimous verdict.

6           The 12 of you should give fair and equal  
7 consideration to all the evidence. You should deliberate with  
8 a goal of reaching an agreement which is consistent with the  
9 individual judgment of each juror. You are impartial judges  
10 of the facts. Your sole interest is to determine whether the  
11 government has proved its case beyond a reasonable doubt.

12           Now, at this time, since the 12 original jurors are  
13 still here, the Court will excuse Mr. Martinez with our  
14 thanks.

15           Mr. Marshal, please raise your right hand.

16           (Court security officer sworn.)

17           THE MARSHAL: I do.

18           THE COURT: Would you take the jury out, please? And  
19 you can take them to lunch. And then we will put a copy of  
20 the instructions together with the indictment and the exhibits  
21 that have been entered into evidence so that you will have  
22 those for your consideration.

23           (Proceedings heard in open court. Jury out.)

24           THE COURT: Okay. Outside the presence of the jury,  
25 I'll just say for the record that the defendant had renewed

1 the motion for a directed verdict, and the motion is denied.

2 One of the things that you did not include, the  
3 defense theory.

4 MS. BABU: I'm sorry, your Honor. I think it was  
5 during the -- we had someone added --

6 THE COURT: So anyway, I read it based on the copy  
7 that you gave me, but when we had a copy, there's both  
8 sides -- can you get it? I guess just get it Xeroxed probably  
9 or whatever they call it now.

10 MS. BABU: I think it's still Xerox, your Honor.

11 THE COURT: I think just have it Xeroxed.

12 Does anybody want to put anything on the record now  
13 that we have completed?

14 I would suggest that -- presumably, they'll go down.  
15 Oftentimes, they'll have a working lunch. They'll come back  
16 up. So we need to have -- be able to contact you in the event  
17 they have a question and if they return a verdict.

18 Are the exhibits ready to go back?

19 MS. BABU: If I can have five minutes, your Honor,  
20 they will be.

21 THE COURT: Okay. So get the defense together and go  
22 over -- I don't think I -- I did refuse the one exhibit, the  
23 one on the tattoos.

24 If they want to play your exhibits, is that easily  
25 done?

1 MR. EICHENSEER: Yes, your Honor. There's a player  
2 that can play all the files.

3 THE COURT: A well tried case on both sides. It's a  
4 pleasure.

5 MR. HYMAN: Thank you, your Honor.

6 MR. EICHENSEER: Thank you, Judge.

7 MS. BABU: Thank you, your Honor.

VOLUME 6-B  
TRANSCRIPT OF PROCEEDINGS - Trial  
BEFORE THE HONORABLE HARRY D. LEINENWEBER and a Jury

APPEARANCES:

For the Plaintiff: HON. ZACHARY T. FARDON  
United States Attorney  
BY: MS. KAVITHA J. BABU  
MR. NICHOLAS J. EICHENSEER  
Assistant United States Attorneys  
219 South Dearborn Street, Suite 500  
Chicago, Illinois 60604  
(312) 353-5300

For the Defendant: MR. LAWRENCE H. HYMAN  
111 West Washington Street  
Suite 1025  
Chicago, Illinois 60602  
(312) 346-6766

1 (Proceedings heard in open court. Jury in.)

2 THE COURT: I understand, Courtney, you are the  
3 foreman; is that correct?

4 THE FOREPERSON: Yes, sir.

5 THE COURT: You've reached a verdict; is that  
6 correct?

7 THE FOREPERSON: Yes, sir.

8 THE COURT: Would you pass it to the marshal?

9 Thank you. The verdict of the jury is as follows:  
10 With respect to Count 1 of the indictment, we, the jury find  
11 as follows: As to defendant, Ernesto Godinez, guilty.

12 Count 2, with respect to Count 2 of the indictment,  
13 we, the jury, find as follows: As to defendant,  
14 Ernesto Godinez, guilty.

15 If you find the defendant, Ernesto Godinez, guilty of  
16 the offense charged in Count 2 of the indictment, then you  
17 must determine whether the government has proven beyond a  
18 reasonable doubt the defendant discharged the firearm. We,  
19 the jury, find the firearm involved in 2 was discharged.

20 Signed, Wendy Courtney and the other 11 jurors.

21 Do you wish the jury polled?

22 MR. PISSETZKY: Please, your Honor.

23 THE COURT: Members of the jury, when your name is  
24 called, please stand at your seat and respond in a negative or  
25 affirmative way to the question posed to you. After you've

1 answered her question, you may resume your seat.

2 THE CLERK: Corey Barnett, was this then and is this  
3 now your verdict?

4 JUROR BARNETT: Yes.

5 THE CLERK: Okay. Thank you.

6 Wendy Courtney, was this then and is this now your  
7 verdict?

8 JUROR COURTNEY: Yes.

9 THE CLERK: Heidi Habas, was this then and is this  
10 now your verdict?

11 JUROR HABAS: Yes.

12 THE CLERK: Ella Hansen, was this then and is this  
13 now your verdict?

14 JUROR HANSEN: Yes.

15 THE CLERK: Thank you.

16 Willie Johnson, was this then and is this now your  
17 verdict?

18 JUROR JOHNSON: Yes.

19 THE CLERK: Thank you.

20 Colleen McBrady, was this then and is this now your  
21 verdict?

22 JUROR McBRADY: Yes.

23 THE CLERK: Thank you.

24 Marilyn Rebus, was this then and is this now your  
25 verdict?

1 JUROR REBUS: Yes.

2 THE CLERK: Thank you.

3 Melanie Saunders, was this then and is this now your  
4 verdict?

5 JUROR SAUNDERS: Yes.

6 THE CLERK: Thank you.

7 Cameron Smith, was this then and is this now your  
8 verdict?

9 JUROR SMITH: Yes.

10 THE CLERK: Thank you.

11 Michelle Spellman, was this then and is this now your  
12 verdict?

13 JUROR SPELLMAN: Yes.

14 THE CLERK: Thank you.

15 Kevin Waden, was this then and is this now your  
16 verdict?

17 JUROR WADEN: Yes.

18 THE CLERK: Lisa Wilson, was this then and is this  
19 now your verdict?

20 JUROR WILSON: Yes.

21 THE CLERK: Thank you.

22 THE COURT: Is that it?

23 THE CLERK: That's it, Judge.

24 THE COURT: So say you all?

25 THE JURY: Yes.

1           THE COURT: All right. The verdict on Count 1 and 2  
2 of guilty is entered in the record. Members of the jury, I  
3 want to thank you for your participation in our jury system  
4 here. It's -- you probably read back when you were in civics  
5 class that we have an obligation to serve as a juror when  
6 we're called. You folks were called, and you did serve.

7           And a lot of people try to get out of jury service  
8 because it isn't the most pleasant work in the -- that you can  
9 do, but you folks responded and you participated.

10          And I'm not going to keep you long because you've had  
11 a long day. So on behalf of the court system, I want to thank  
12 you for your service. And we'll stand adjourned.

13          THE CLERK: All rise.

14          (Proceedings heard in open court. Jury out.)

15          THE CLERK: Please be seated and come to order.

16          THE COURT: The verdict -- judgment is entered on the
